

CALCULATION OF REGISTRATION FEE

Title of each class of securities to be registered	Amount to be registered	Proposed maximum offering price per unit	Proposed maximum aggregate offering price	Amount of registration fee ⁽¹⁾
Common Stock	193,200,000	\$3.22	\$622,104,000	\$34,713.41

(1) Calculated in accordance with Rule 457(r) of the Securities Act of 1933, as amended (or the Securities Act). Payment of the registration fee at the time of filing of the registration statement on May 26, 2009 was deferred pursuant to Rule 456(b) of the Securities Act and paid herewith.

PROSPECTUS SUPPLEMENT
(To prospectus dated May 26, 2009)

168,000,000 Shares

Common Stock

We are offering 168,000,000 shares of our common stock to be sold in this offering. We expect to receive approximately \$541.0 million in aggregate gross proceeds plus up to approximately \$81.1 million in additional aggregate gross proceeds if the underwriters' over-allotment is exercised in full. The last reported sales price of our common stock on May 27, 2009 was \$3.39 per share.

We are externally managed and advised by Fixed Income Discount Advisory Company, which we refer to as FIDAC or our Manager, an investment adviser registered with the Securities and Exchange Commission. FIDAC is a wholly-owned subsidiary of Annaly Capital Management, Inc., which we refer to as Annaly, a New York Stock Exchange-listed real estate investment trust.

Immediately after this offering, Annaly will purchase in a private offering approximately 4.72 million shares, the maximum number of shares allowable to Annaly based on the size of its current ownership under New York Stock Exchange rules without shareholder approval.

Our common stock is subject to certain restrictions on ownership designed to preserve our qualification as a real estate investment trust for federal income tax purposes. See "Description of Capital Stock" on page 6 of the accompanying prospectus.

Our common stock is listed on the New York Stock Exchange under the symbol "CIM."

Investing in our common stock involves risks that are described under the caption "Risk Factors" beginning on page S-11 of this prospectus supplement, in the accompanying prospectus, and in our Annual Report on Form 10-K for the fiscal year ended December 31, 2008 and our Quarterly Report on Form 10-Q for the fiscal quarter ended March 31, 2009, which are incorporated by reference in the accompanying prospectus.

	Per Share	Total
Public offering price	\$3.22	\$540,960,000
Underwriting discount	\$.1288	\$21,638,400
Proceeds, before expenses, to us	\$3.0912	\$519,321,600

The underwriters may also purchase up to an additional 25,200,000 shares at the public offering price, less the underwriting discount, within 30 days from the date of this prospectus supplement to cover over-allotments, if any.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus supplement or the accompanying prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The shares will be ready for delivery on or about June 2, 2009.

You should rely only on the information contained or incorporated by reference in this prospectus supplement or the accompanying prospectus. We have not, and the underwriters have not, authorized anyone to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are offering to sell, and seeking offers to buy, shares of our common stock only in jurisdictions where offers and sales are permitted. You should assume that the information appearing in this prospectus supplement and the accompanying prospectus, as well as information we previously filed with the Securities and Exchange Commission and incorporated by reference, is only accurate as of their respective dates. Our business, financial condition, results of operations and prospects may have changed since those dates.

A WARNING ABOUT FORWARD-LOOKING STATEMENTS

We make forward-looking statements in this prospectus supplement that are subject to risks and uncertainties. These forward-looking statements include information about possible or assumed future results of our business, financial condition, liquidity, results of operations, plans and objectives. When we use the words “believe,” “expect,” “anticipate,” “estimate,” “plan,” “continue,” “intend,” “should,” “may,” “would,” “will” or similar expressions, we intend to identify forward-looking statements. Statements regarding the following subjects, among others, are forward-looking by their nature:

- our business and investment strategy;
- our projected financial and operating results;
- our ability to maintain existing financing arrangements, obtain future financing arrangements and the terms of such arrangements;
- general volatility of the securities markets in which we invest;
- the implementation, timing and impact of, and changes to, various government programs, including the U.S. Treasury’s plan to buy U.S. government agency residential mortgage-backed securities, the Term Asset-Backed Securities Loan Facility, and the Public-Private Investment Program;
- our expected investments;
- changes in the value of our investments;
- interest rate mismatches between our investments and our borrowings used to fund such purchases;
- changes in interest rates and mortgage prepayment rates;
- effects of interest rate caps on our adjustable-rate investments;
- rates of default or decreased recovery rates on our investments;
- prepayments of the mortgage and other loans underlying our mortgage-backed or other asset-backed securities;
- the degree to which our hedging strategies may or may not protect us from interest rate volatility;
- impact of and changes in governmental regulations, tax law and rates, accounting guidance, and similar matters;
- availability of investment opportunities in real estate-related and other securities;
- availability of qualified personnel;
- estimates relating to our ability to make distributions to our stockholders in the future;
- our understanding of our competition;
- market trends in our industry, interest rates, the debt securities markets or the general economy; and
- use of proceeds of this offering.

The forward-looking statements are based on our beliefs, assumptions and expectations of our future performance, taking into account all information currently available to us. You should not place undue reliance on these forward-looking statements. These beliefs, assumptions and expectations can change as a result of many possible events or factors, not all of which are known to us. Some of these factors are described under the captions “Prospectus Supplement Summary,” “Risk Factors,” “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” and “Business” in this prospectus supplement, the accompanying prospectus, and in our Annual Report on Form 10-K for the fiscal year ended December 31, 2008 and our Quarterly Report on Form 10-Q for the fiscal quarter ended March 31, 2009, which are incorporated by reference in the accompanying prospectus. If a change occurs, our business, financial condition, liquidity and results of operations may vary materially from those expressed in our forward-looking statements. Any forward-looking statement speaks only as of the date on which it is made. New risks and uncertainties arise from time to time, and it is impossible for us to predict those events or how they may affect us. Except as required by law, we are not obligated to, and do not intend to, update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

PROSPECTUS SUPPLEMENT SUMMARY

This summary highlights some of the information in this prospectus supplement. It is not complete and does not contain all of the information that you should consider before investing in our common stock. You should read carefully the more detailed information set forth under "Risk Factors" and the other information included in this prospectus supplement, in the accompanying prospectus, and in our Annual Report on Form 10-K for the fiscal year ended December 31, 2008 and our Quarterly Report on Form 10-Q for the fiscal quarter ended March 31, 2009, which are incorporated by reference in the accompanying prospectus. Except where the context suggests otherwise, the terms "Chimera," "company," "we," "us" and "our" refer to Chimera Investment Corporation; "our Manager" and "FIDAC" refer to Fixed Income Discount Advisory Company, our external manager; and "Annaly" refers to Annaly Capital Management, Inc., the parent company of FIDAC. Unless indicated otherwise, the information in this prospectus supplement assumes (i) the common stock to be sold in this offering is to be sold at \$3.22 per share, (ii) the purchase by Annaly in a private offering of 4,724,017 shares at \$3.22 per share and (iii) no exercise by the underwriters of their overallotment option to purchase or place up to an additional 25,200,000 shares of our common stock.

The Company

We are a specialty finance company that invests in residential mortgage-backed securities, or RMBS, residential mortgage loans, real estate-related securities and various other asset classes. We elected to be taxed as a real estate investment trust, or REIT, for federal income tax purposes commencing with our taxable year ending on December 31, 2007. Therefore, we generally will not be subject to federal income tax on our taxable income that is distributed to our stockholders. We commenced operations in November 2007.

We are externally managed by Fixed Income Discount Advisory Company, which we refer to as our Manager or FIDAC. Our Manager is an investment advisor registered with the Securities and Exchange Commission, or SEC. Additionally, our Manager is a wholly-owned subsidiary of Annaly, a NYSE-listed REIT, which has a long track record of managing investments in U.S. government agency residential mortgage-backed securities, or Agency RMBS. To date, Annaly has invested approximately \$155.5 million in shares of our common stock. Immediately after this offering, Annaly will purchase in a private offering approximately 4.72 million shares, the maximum number of shares allowable to Annaly based on the size of its current ownership under NYSE rules without shareholder approval.

Our objective is to provide attractive risk-adjusted returns to our investors over the long-term, primarily through dividends and secondarily through capital appreciation. We intend to achieve this objective by investing in a broad class of financial assets to construct an investment portfolio that is designed to achieve attractive risk-adjusted returns and that is structured to comply with the various federal income tax requirements for REIT status and to maintain our exemption from registration under the Investment Company Act of 1940, as amended, or 1940 Act.

We recognize that investing in our targeted asset classes is highly competitive, and that our Manager competes with many other investment managers for profitable investment opportunities in these areas. Annaly and our Manager have close relationships with a diverse group of financial intermediaries, ranging from primary dealers, major investment banks and brokerage firms to leading mortgage originators, specialty investment dealers and financial sponsors. In addition, we have benefited and expect to continue to benefit from our Manager's analytical and portfolio management expertise and technology. We believe that the combined and complementary strengths of Annaly and our Manager give us a competitive advantage over REITs with a similar focus to ours.

Our Manager

We are externally managed and advised by FIDAC pursuant to a management agreement. All of our officers are employees of our Manager or its affiliates. Our Manager is a fixed-income investment management company specializing in managing investments in Agency RMBS, which are mortgage pass-through certificates, collateralized mortgage obligations, or CMOs, and other mortgage-backed securities representing interests in or obligations backed by pools of mortgage loans issued or guaranteed by the Federal National Mortgage Association, or Fannie Mae, the Federal Home Loan Mortgage Corporation, or Freddie Mac, and the Government National Mortgage Association, or Ginnie Mae. Our Manager also has experience in managing investments in non-Agency RMBS and collateralized debt obligations, or CDOs; real estate-related securities; and managing credit and interest rate-sensitive investment strategies. Our Manager commenced active investment management operations in 1994. At March 31, 2009, our Manager was the adviser or sub-adviser for funds with approximately \$3.8 billion in net assets and \$11.6 billion in gross assets, and which consisted predominantly of Agency RMBS.

Our Manager is responsible for administering our business activities and day-to-day operations. We have no employees other than our officers. Pursuant to the terms of the management agreement, our Manager provides us with our management team, including our officers, along with appropriate support personnel. Our Manager is at all times subject to the supervision and oversight of our board of directors and has only such functions and authority as we delegate to it. We do not pay any of our officers any cash compensation. Rather, we pay our Manager a base management fee pursuant to the terms of the management agreement. We do not pay our Manager any incentive-based fees or other compensation.

Our Investment Strategy

Our objective is to provide attractive risk-adjusted returns to our investors over the long-term, primarily through dividends and secondarily through capital appreciation. We intend to achieve this objective by investing in a diversified investment portfolio of RMBS, residential mortgage loans, real estate-related securities and various other asset classes, subject to maintaining our REIT status and exemption from registration under the 1940 Act. The RMBS, asset-backed securities, or ABS, commercial mortgage backed securities, or CMBS, and CDOs we purchase may include investment-grade and non-investment grade classes, including the BB-rated, B-rated and non-rated classes.

We rely on our Manager's expertise in identifying assets within our target asset classes. Our Manager makes investment decisions based on various factors, including expected cash yield, relative value, risk-adjusted returns, current and projected credit fundamentals, current and projected macroeconomic considerations, current and projected supply and demand, credit and market risk concentration limits, liquidity, cost of financing and financing availability, as well as maintaining our REIT qualification and our exemption from registration under the 1940 Act.

Since we commenced operations in November 2007, we have focused our investment activities on acquiring non-Agency RMBS and on purchasing residential mortgage loans that have been originated by select high-quality originators, including the retail lending operations of leading commercial banks. Over time, we will modify our investment allocation strategy as market conditions change to seek to maximize the returns from our investment portfolio. We believe this strategy, combined with our Manager's experience, will enable us to pay dividends and achieve capital appreciation throughout changing interest rate and credit cycles and provide attractive long-term returns to investors.

Our targeted asset classes and the principal investments we have made and expect to make in each asset class are as follows:

<u>Asset Class</u>	<u>Principal Investments</u>
Residential Mortgage-Backed Securities, or RMBS	<ul style="list-style-type: none"> • Non-Agency RMBS, including investment-grade and non-investment grade classes, including the BB-rated, B-rated and non-rated classes. • Agency RMBS.
Residential Mortgage Loans	<ul style="list-style-type: none"> • Prime mortgage loans, which are mortgage loans that conform to the underwriting guidelines of Fannie Mae and Freddie Mac, which we refer to as Agency Guidelines; and jumbo prime mortgage loans, which are mortgage loans that conform to the Agency Guidelines except as to loan size. • Alt-A mortgage loans, which are mortgage loans that may have been originated using documentation standards that are less stringent than the documentation standards applied by certain other first lien mortgage loan purchase programs, such as the Agency Guidelines, but have one or more compensating factors such as a borrower with a strong credit or mortgage history or significant assets.
Other Asset-Backed Securities, or ABS	<ul style="list-style-type: none"> • Commercial mortgage-backed securities, or CMBS. • Debt and equity tranches of collateralized debt obligations, or CDOs. • Consumer and non-consumer ABS, including investment-grade and non-investment grade classes, including the BB-rated, B-rated and non-rated classes.

Our investment portfolio at March 31, 2009 was weighted toward RMBS. After the consummation of this offering, we expect that over the near term our investment portfolio will continue to be weighted toward RMBS, subject to maintaining our REIT qualification and our 1940 Act exemption. In addition, we have engaged in and anticipate continuing to engage in transactions with residential mortgage lending operations of leading commercial banks and other high-quality originators in which we identify and re-underwrite residential mortgage loans owned by such entities, and rather than purchasing and securitizing such residential mortgage loans ourselves, we and the originator would structure the securitization and we would purchase the resulting mezzanine and subordinate non-Agency RMBS. We have and may continue to engage in similar transactions with non-Agency RMBS in which we would acquire originally AAA-rated non-Agency RMBS and re-securitize those securities. We sell all or a portion of the securities issued by the securitization trust and retain the rated or unrated mezzanine and other subordinated RMBS. Our investment decisions, however, will depend on prevailing market conditions and will change over time. As a result, we cannot predict the percentage of our assets that will be invested in each asset class or whether we will invest in other classes of investments. We may change our investment strategy and policies without a vote of our stockholders.

We elected to be taxed as a REIT commencing with our taxable year ending on December 31, 2007 and to operate our business so as to be exempt from registration under the 1940 Act, and therefore we will be required to invest a substantial majority of our assets in loans secured by mortgages on real estate and real estate-related assets.

Subject to maintaining our REIT qualification and our 1940 Act exemption, we do not have any limitations on the amounts we may invest in any of our targeted asset classes.

Our Financing Strategy

We use leverage to increase potential returns to our stockholders. We are not required to maintain any specific debt-to-equity ratio as we believe the appropriate leverage for the particular assets we are financing depends on the credit quality and risk of those assets. Subject to maintaining our REIT qualification, we may use a number of sources to finance our investments, including repurchase agreements, warehouse facilities, securitization, asset-backed commercial paper, and term financing structures.

Our ability to fund our investments on a leveraged basis depends to a large extent upon our ability to secure warehouse, repurchase, credit, and/or commercial paper financing on acceptable terms. The current dislocation in the non-Agency mortgage sector has made it difficult for us to obtain short-term financing on favorable terms. As a result, we have completed loan securitizations in order to obtain long-term financing and terminated our un-utilized whole loan repurchase agreements in order to avoid paying non-usage fees under those agreements.

We have entered into a RMBS repurchase agreement with Annaly. This agreement contains customary representations, warranties and covenants contained in such agreements. As of May 19, 2009, we were borrowing \$406.2 million under this repurchase agreement at an interest rate of 1.72%. Our RMBS repurchase agreement with Annaly is rolled daily at market rates and is secured by the RMBS pledged under the agreement. While we do not expect to increase significantly the amount of securities pledged to Annaly or significantly increase or decrease the funds we borrow from Annaly, until we invest the net proceeds of this offering in other assets, we may use part of the net proceeds to pay down amounts borrowed under our repurchase agreement with Annaly. We cannot assure you that Annaly will continue to provide us with such financing. If Annaly does not provide us with financing, we cannot assure you that we will be able to replace such financing. If we are not able to replace this financing, we could be forced to sell our assets at an inopportune time when prices are depressed.

We have entered into a RMBS repurchase agreement with RCap Securities, Inc., or RCap, a wholly-owned subsidiary of Annaly. This agreement contains customary representations, warranties and covenants contained in such agreements. As of May 19, 2009, we were borrowing \$18.7 million under this repurchase agreement at an interest rate of 0.55%. Our RMBS repurchase agreement with RCap has a one-month term and is secured by the RMBS pledged under the agreement. We cannot assure you that RCap will continue to provide us with such financing. If RCap does not provide us with financing, we cannot assure you that we will be able to replace such financing.

Our Interest Rate Hedging and Risk Management Strategy

We may, from time to time, utilize derivative financial instruments to hedge all or a portion of the interest rate risk associated with our borrowings. Under the federal income tax laws applicable to REITs, we generally enter into certain transactions to hedge indebtedness that we incur, or plan to incur, to acquire or carry real estate assets.

Our Competitive Advantages

We believe that our competitive advantages include the following:

Investment Strategy Designed to Perform in a Variety of Interest Rate and Credit Environments

We seek to manage our investment strategy to balance both interest rate risk and credit risk. We believe this strategy is designed to generate attractive, risk-adjusted returns in a variety of market conditions because operating conditions in which either of these risks are increased, or decreased, may occur at different points in the economic cycle. For example, there may be periods when interest-rate sensitive strategies outperform credit-sensitive strategies whereby we would receive increased income over our cost of financing, in which case our portfolio's increased exposure to this risk would be beneficial. There may be other periods when credit-sensitive strategies outperform interest-rate sensitive strategies. Although we face interest rate risk and credit risk, we believe that with

appropriate hedging strategies, as well as our ability to evaluate the quality of targeted asset investment opportunities, we can reduce these risks and provide attractive risk-adjusted returns.

Credit-Oriented Investment Approach

We seek to minimize principal loss while maximizing risk-adjusted returns through our Manager's credit-based investment approach, which is based on rigorous quantitative and qualitative analysis.

Experienced Investment Advisor

Our Manager has a long history of strong performance across a broad range of fixed-income assets. Our Manager's most senior investment professionals have a long history of investing in a variety of mortgage and real estate-related securities and structuring and marketing CDOs. Our Manager is also acting as liquidating agent for a number of CDOs, and has competitive advantages as a result of its knowledge regarding the pipeline, values, supply and market participants for liquidations of CDOs because of its involvement in these liquidations. Investments will be overseen by an Investment Committee of our Manager's professionals, consisting of Michael A.J. Farrell, Wellington J. Denahan-Norris, James P. Fortescue, Kristopher Konrad, Rose-Marie Lyght, Ronald Kazel, Jeremy Diamond, Eric Szabo and Matthew Lambiase.

Access to Annaly's and Our Manager's Relationships

Annaly and our Manager have developed long-term relationships with a number of commercial banks and other financial intermediaries. We believe these relationships provide us with a range of high-quality investment opportunities.

Access to Our Manager's Systems and Infrastructure

Our Manager has created a proprietary portfolio management system, which we believe provides us with a competitive advantage. Our Manager's personnel have created a comprehensive finance and administrative infrastructure, an important component of a complex investment vehicle such as a REIT. In addition, most of our Manager's personnel are also Annaly's personnel; therefore, they have had extensive experience managing Annaly, which is a REIT.

Alignment of Interests between Annaly, Our Manager and Our Investors

To date, Annaly has invested approximately \$155.5 million in shares of our common stock. Immediately after this offering, Annaly will purchase in a private offering approximately 4.72 million shares, the maximum number of shares allowable to Annaly based on the size of its current ownership under NYSE rules without shareholder approval. Annaly will purchase these shares at the share price per share that we sell shares in our public offering. Annaly has agreed with us to lock-up such shares it acquires immediately after this offering in the private offering for three years from the date of this offering.

We believe that Annaly's investment aligns our Manager's interests with our interests.

Compliance with REIT and Investment Company Requirements

We monitor our investment securities and the income from these securities and, to the extent we enter into hedging transactions, we monitor income from our hedging transactions as well, so as to ensure at all times that we maintain our qualification as a REIT and our exempt status under the 1940 Act, which may include qualifying for an exemption from registration under the 1940 Act pursuant to Section 3(a)(1) or Section 3(a)(6) of the 1940 Act in addition to Section 3(c)(5)(C) of the 1940 Act.

Recent Developments

TALF

On November 25, 2008, the U.S. Treasury and the Federal Reserve announced the creation of the Term Asset-Backed Securities Loan Facility, or the TALF. Under the TALF, the Federal Reserve Bank of New York, or the FRBNY, provides non-recourse loans to borrowers to fund their purchase of eligible assets, which currently

includes certain ABS but not RMBS or CMBS. On March 23, 2009, the U.S. Treasury announced preliminary plans to expand the TALF to include non-Agency RMBS and CMBS. On May 1, 2009, the Federal Reserve provided more of the details as to how TALF is to be expanded to newly issued CMBS and explained that beginning in June 2009, up to \$100 billion of TALF loans will be available to finance purchases of CMBS created on or after January 1, 2009. In addition to the ability of newly issued CMBS to become collateral under the TALF, on May 19, 2009, the Federal Reserve provided details on the types of legacy CMBS that is eligible to become collateral under the TALF. To become eligible collateral under the TALF, the legacy CMBS must be issued before January 1, 2009 and must be senior in payment priority to all other interests in the underlying pool of commercial mortgages meet certain other criteria designed to protect the Federal Reserve and the U.S. Treasury from credit risk. Both newly issued CMBS and legacy CMBS must have at least two triple-A ratings from DBRS, Fitch Ratings, Moody's Investors Service, Realpoint, or Standard Poor's and must not have a rating below triple-A from any of these rating agencies to become eligible collateral under the TALF. To date, neither the FRBNY nor the U.S. Treasury has announced how the TALF will be expanded to cover non-Agency RMBS.

While we will consider utilizing the TALF program to the extent that it is feasible for us to do so and the nature of eligible assets is extended to fit within our investment strategy, we can provide no assurance that we will be eligible to do so, or if eligible, will be able to utilize it successfully.

Public-Private Investment Program

On March 23, 2009, the U.S. Treasury, in conjunction with the Federal Deposit Insurance Corporation, or FDIC, and the Federal Reserve, announced the establishment of the Public-Private Investment Program, or PPIP. The PPIP is designed to encourage the transfer of certain illiquid legacy real estate-related assets off of the balance sheets of financial institutions, restarting the market for these assets and supporting the flow of credit and other capital into the broader economy. The PPIP is expected to be \$500 billion to \$1 trillion in size and has two primary components: the Legacy Securities Program and the Legacy Loan Program. Under the Legacy Securities Program, Legacy Securities Public-Private Investment Funds, or PPIFs, will be established to purchase from financial institutions certain non-Agency RMBS and CMBS that were originally rated in the highest rating category by one or more of the nationally recognized statistical rating organizations. Under the Legacy Loan Program, Legacy Loan PPIFs will be established to purchase troubled loans (including residential and commercial mortgage loans) from insured depository institutions.

We are currently actively evaluating these programs to determine if they are appropriate in light of our investment strategy. As further details of these programs emerge, we may deem them appropriate in light of our investment strategy. We can provide no assurance, however, that we will be eligible to utilize these programs, or if eligible, will be able to utilize them successfully. Further, these programs are still in early stages of development and it is not possible for us to predict how these programs will impact our current or future investments.

Recent Legislative Action and Litigation

As delinquencies and defaults in residential mortgages increase, there has been an increasing amount of legislative action. For example, Congress has recently considered amendments to the federal bankruptcy laws to allow judges to modify residential mortgage loans with owner-occupant borrowers in Chapter 13 bankruptcy which could lead to reductions in interest rate and principal and extensions of term of residential mortgage loans and thereby could affect the return on the residential mortgage loan or RMBS secured by such residential mortgage loans. These proposals, if enacted, may negatively impact our business. In addition, state laws continue to be enacted that might restrict a residential mortgage loan servicer's ability to foreclose and resell the property of a customer in default. These laws delay the initiation or completion of foreclosure proceedings on specified types of residential mortgage loans, or otherwise limit the ability of residential mortgage loan servicers to take actions that may be essential to preserve the value of the mortgage loans on behalf of the holders of RMBS. These laws may negatively impact our business.

In May 2009, a securitizer of residential mortgage loans entered into a settlement agreement with the Commonwealth of Massachusetts stemming from its investigation of subprime lending and securitization markets. The securitizer agreed to provide loan restructuring (including significant principal write-downs) valued at approximately \$50 million to Massachusetts borrowers of subprime loans and to make a \$10 million payment to the Commonwealth. If other courts or regulators take similar actions, our business may be negatively impacted.

Amendment of Our Charter

On May 22, 2009, we amended our charter to raise the total number of authorized shares we are permitted to issue from 550,000,000 shares, of which 500,000,000 shares were classified as "Common Stock" and 50,000,000 shares were classified as "Preferred Stock," to 1,100,000,000 shares. Our authorized capital stock now consists of 1,100,000,000 shares of capital stock, of which 1,000,000,000 shares are classified as "Common Stock" and 100,000,000 shares are classified as "Preferred Stock." The amendment to our charter was approved by our board of directors on May 19, 2009.

Dividend

On May 21, 2009, we announced that our board of directors declared a second quarter cash distribution of \$0.08 per share of our common stock. This dividend will be paid on July 31, 2009 to common shareholders of record on June 1, 2009. Common stock sold in this offering will not participate in this quarterly distribution. We have not yet completed our 2009 second quarter or our financial statements for the second quarter. Our Core Earnings per share for the second quarter could be different from our dividends per share. Core Earnings is a non-GAAP measure and is defined as GAAP net income (loss) excluding non-cash equity compensation expense, excluding any unrealized gains, losses or other items that do not affect realized net income (regardless of whether such items are included in other comprehensive income or loss, or in net income). GAAP is defined as accounting principles generally accepted in the United States.

Recent Offerings

On April 15, 2009, we announced the sale of 235,000,000 shares of our common stock at \$3.00 per share for proceeds, less the underwriters' discount and offering expenses, of approximately \$674.8 million. Immediately following the sale of these shares, Annaly purchased 24,955,752 shares at the same price per share as the public offering, for proceeds of approximately \$74.9 million. In addition, on April 16, 2009 the underwriters exercised the option to purchase up to an additional 35,250,000 shares of our common stock to cover over-allotments for proceeds, less the underwriters' discount, of approximately \$101.3 million. These sales were completed on April 21, 2009. We raised total net proceeds of approximately \$851.0 million in these offerings. We have deployed all of the net proceeds of these offerings and used most of the net proceeds to purchase unlevered non-Agency RMBS and the remainder of the net proceeds to purchase Agency RMBS using what we believe to be a modest amount of leverage.

Corporate Information

Our principal executive offices are located at 1211 Avenue of Americas, Suite 2902, New York, New York 10036. Our telephone number is 1-866-315-9930. Our website is <http://www.chimerareit.com>. The contents of our website are not a part of this prospectus supplement or the accompanying prospectus. We have included our website address only as an inactive textual reference and do not intend it to be an active link to our website.

Summary Financial Information

The following table presents summary financial data as of and for the period indicated. We derived the summary financial data from our audited consolidated financial statements for the period from November 21, 2007 (commencement of operations) through December 31, 2007 and for the fiscal year ended December 31, 2008 and our unaudited consolidated financial statements for the three months ended March 31, 2009 and 2008. The following summary financial information should be read in conjunction with our more detailed information contained in the consolidated financial statements and notes thereto in our Annual Report on Form 10-K for the fiscal year ended December 31, 2008 and our Quarterly Report on Form 10-Q for the fiscal quarter ended March 31, 2009, which are incorporated by reference into the accompanying prospectus and "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2008 and in our Quarterly Report on Form 10-Q for the fiscal quarter ended March 31, 2009, which are incorporated by reference into the accompanying prospectus.

- (3) Data for the period November 21, 2007 through December 31, 2007 is provided on an annualized basis.

Reconciliation of non-GAAP financial measurements to GAAP financial measurements

As a REIT, we are required to distribute to our shareholders substantially all of our REIT taxable income in the form of dividends. Accordingly, we believe taxable income per share is a meaningful financial measurement for investors and management in assessing our performance. A reconciliation of REIT taxable income per share to GAAP EPS (basic) follows:

Reconciliation of REIT Taxable Income Per Share to GAAP EPS

	For the three months ended March 31, 2009	For the three months ended March 31, 2008	For the year ended December 31, 2008	For the period November 21, 2007 through December 31, 2007

REIT taxable income per share	\$ 0.09	\$ 0.27	\$ 0.62	\$ 0.03

The Offering

Issuer	Chimera Investment Corporation
Common stock offered by us	168,000,000 shares (plus up to an additional 25,200,000 shares of our common stock that we may issue and sell upon the exercise of the underwriters' overallotment option).
Common stock to be outstanding after this offering	645,125,786 shares, based upon 472,401,769 shares of common stock outstanding as of May 22, 2009. Does not include up to an additional 25,200,000 shares of our common stock that we may issue and sell upon the exercise of the underwriters' overallotment option. Includes 1,127,875 shares of our restricted common stock granted pursuant to our equity incentive plan that were invested as of March 31, 2009. Includes 4,724,017 shares to be sold to Annaly immediately after this offering.
NYSE symbol	"CIM"
Use of proceeds	We intend to invest the net proceeds of this offering primarily in non-Agency RMBS, Agency RMBS, prime and Alt-A mortgage loans, CMBS, CDOs, and other consumer or non-consumer ABS. Our investment portfolio at March 31, 2009 was weighted toward RMBS. After the consummation of this offering, we expect that over the near term our investment portfolio will continue to be weighted toward RMBS, subject to maintaining our REIT qualification and our 1940 Act exemption. Until appropriate investments can be identified, our Manager may invest these funds in interest-bearing short-term investments, including money market accounts, which are consistent with our treatment as a REIT. These investments are expected to provide a lower net return than we hope to achieve from investments in our intended use of proceeds of this offering. In addition, until appropriate investments can be found, we may also utilize the net proceeds to pay down amounts borrowed under our repurchase agreement with Annaly. See "Use of Proceeds."
Risk factors	Investing in our common stock involves a high degree of risk. You should carefully read and consider the information set forth under "Risk Factors" and all other information in this prospectus supplement, in the accompanying prospectus, and in our Annual Report on Form 10-K for the fiscal year ended December 31, 2008 and our Quarterly Report on Form 10-Q for the fiscal quarter ended March 31, 2009, which are incorporated by reference in the accompanying prospectus, before investing in our common stock.

RISK FACTORS

In evaluating an investment in our common stock, you should carefully consider the risks set forth under the caption "Risk Factors" in this prospectus supplement, in the accompanying prospectus, and in our Annual Report on Form 10-K for the fiscal year ended December 31, 2008 and our Quarterly Report on Form 10-Q for the fiscal quarter ended March 31, 2009, which are incorporated by reference in the accompanying prospectus.

Continued adverse developments in the broader residential mortgage market may adversely affect the value of the assets in which we invest.

In 2008 and so far in 2009, the residential mortgage market in the United States has experienced a variety of difficulties and changed economic conditions, including defaults, credit losses and liquidity concerns. Certain commercial banks, investment banks and insurance companies have announced extensive losses from exposure to the residential mortgage market. These losses have reduced financial industry capital, leading to reduced liquidity for some institutions. These factors have impacted investor perception of the risk associated with RMBS, residential mortgage loans, real estate-related securities and various other asset classes in which we invest. As a result, values for RMBS, residential mortgage loans, real estate-related securities and various other asset classes in which we invest have experienced a certain amount of volatility. Further increased volatility and deterioration in the broader residential mortgage and RMBS markets may adversely affect the performance and market value of our investments.

Any decline in the value of our investments, or perceived market uncertainty about their value, would likely make it difficult for us to obtain financing on favorable terms or at all, or maintain our compliance with terms of any financing arrangements already in place. The RMBS in which we invest are classified for accounting purposes as available-for-sale. All assets classified as available-for-sale are reported at fair value with unrealized gains and losses excluded from earnings and reported as a separate component of stockholders' equity. As a result, a decline in fair values may reduce the book value of our assets. Moreover, if the decline in fair value of an available-for-sale security is other-than-temporarily impaired, such decline will reduce earnings. If market conditions result in a decline in the fair value of our RMBS, our financial position and results of operations could be adversely affected.

The lack of liquidity in our investments may adversely affect our business.

We may invest in securities or other instruments that are not liquid. It may be difficult or impossible to obtain third party pricing on the investments we purchase. Turbulent market conditions, such as those currently in effect, could significantly and negatively impact the liquidity of our assets. Illiquid investments typically experience greater price volatility as a ready market does not exist and can be more difficult to value. In addition, validating third party pricing for illiquid investments may be more subjective than more liquid investments. The illiquidity of our investments may make it difficult for us to sell such investments if the need or desire arises. In addition, if we are required to liquidate all or a portion of our portfolio quickly, we may realize significantly less than the value at which we have previously recorded our investments. As a result, our ability to vary our portfolio in response to changes in economic and other conditions may be relatively limited, which could adversely affect our results of operations and financial condition.

We may allocate the net proceeds from this offering to investments with which you may not agree.

We will have significant flexibility in investing the net proceeds of this offering. You will be unable to evaluate the manner in which the net proceeds of this offering will be invested or the economic merit of our expected investments and, as a result, we may use the net proceeds from this offering to invest in investments with which you may not agree. The failure of our management to apply these proceeds effectively or find investments that meet our investment criteria in sufficient time or on acceptable terms could result in unfavorable returns, could cause a material adverse effect on you, and could cause the value of our common stock to decline. In addition, although we presently do not intend to use such net proceeds in the near term to pay down permanently our repurchase facility with Annaly, until appropriate investments can be found, we may also utilize the net proceeds to pay down amounts borrowed under our repurchase agreement with Annaly. To the extent we raise more proceeds in this offering, we will make more investments.

U SE OF PROCEEDS

We estimate that our net proceeds from this public offering of our shares of common stock, after deducting the underwriting discount and our estimated offering expenses, will be approximately \$519.0 million (based on the price on the cover of this prospectus supplement). We estimate that our net proceeds will be approximately \$596.9 million if the underwriters exercise their overallotment option in full.

Immediately after this offering, Annaly will purchase in a private offering approximately 4.72 million shares, the maximum number of shares allowable to Annaly based on the size of its current ownership under NYSE rules without shareholder approval. Annaly will purchase these shares at the share price per share that we sell shares in our public offering. We will not pay any underwriting fees, commissions or discounts with respect to the shares we sell to Annaly. We plan to invest the net proceeds of this offering and the sale of shares to Annaly immediately after this offering in accordance with our investment objectives and the strategies described in this prospectus supplement. See “Prospectus Supplement Summary—Our Investment Strategy.”

We intend to use the net proceeds of this offering to finance the acquisition of non-Agency RMBS, Agency RMBS, prime and Alt-A mortgage loans, CMBS, CDOs and other consumer or non-consumer ABS. Our investment portfolio at March 31, 2009 was weighted toward RMBS. After the consummation of this offering, we expect that over the near term our investment portfolio will continue to be weighted toward RMBS, subject to maintaining our REIT qualification and our 1940 Act exemption.

We may also use the proceeds for other general corporate purposes such as repayment of outstanding indebtedness, working capital, and for liquidity needs, although we presently do not intend to use such net proceeds in the near term to pay down permanently our repurchase facility with Annaly. Pending any such uses, we may invest the net proceeds from the sale of any securities in interest-bearing short-term investments, including money market accounts that are consistent with our treatment as a REIT, or may use them to reduce short term indebtedness. These investments are expected to provide a lower net return than we hope to achieve from investments in our intended use of proceeds of this offering. In addition, until appropriate investments can be found, we may also utilize the net proceeds to pay down amounts borrowed under our repurchase agreement with Annaly. To the extent we raise more proceeds in this offering, we will make more investments. To the extent we raise less proceeds in this offering, we will make fewer investments.

D ISTRIBUTIONS

To maintain our qualification as a REIT, we must distribute substantially all of our taxable income to our stockholders for each year. We have done this in the past and intend to continue to do so in the future. We also have declared and paid regular quarterly cash dividends in the past and intend to do so in the future.

The following table sets forth the cash distributions declared per common share during each fiscal quarter of our current fiscal year and our last two fiscal years.

	Cash Distributions Declared Per Common Share
2009	
Second quarter	\$.08
First quarter	\$.06
2008	
Fourth quarter	\$.04
Third quarter	\$.16
Second quarter	\$.16
First quarter	\$.26
2007	
Fourth quarter (from the period November 21, 2007 through December 31, 2007)	\$.025

We have not established a minimum distribution payment level on our common stock and our ability to pay distributions on our common stock may be adversely affected as a result of the risks set forth under the caption "Risk Factors" in this prospectus supplement, in the accompanying prospectus, and in our Annual Report on Form 10-K for the fiscal year ended December 31, 2008 and our Quarterly Report on Form 10-Q for the fiscal quarter ended March 31, 2009, which are incorporated by reference in the accompanying prospectus. All distributions will be made at the discretion of our board of directors and will depend on our earnings, our financial condition, maintenance of our REIT status and such other factors as our board of directors may deem relevant from time to time.

C CAPITALIZATION

The following table sets forth our capitalization as of March 31, 2009 (i) on a historical basis; (ii) as adjusted for (1) the sale of 270,250,000 shares of common stock (including overallocation shares sold) at \$3.00 per share in an underwritten public offering, less the underwriters' discount, that closed on April 21, 2009 and (2) the sale of 24,955,752 shares to Annaly immediately following the closing of the public offering on April 21, 2009 at the same price per share as the public offering; and (iii) as adjusted for (1) the sale of shares of our common stock set forth in (ii), (2) the sale of our common stock in this offering at an offering price of \$3.22 per share after deducting the underwriters' commissions and estimated offering expenses payable by us, and (3) the private offering to Annaly of 4,724,017 shares of our common stock immediately after this offering at the same price per share as the price per share in this public offering. You should read this table together with "Use of Proceeds" included elsewhere in this prospectus supplement. This presentation should be read in conjunction with our more detailed information contained in the consolidated financial statements and notes thereto in our Annual Report on Form 10-K for the fiscal year ended December 31, 2008 and our Quarterly Report on Form 10-Q for the fiscal quarter ended March 31, 2009, which are incorporated by reference into the accompanying prospectus and "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2008 and in our Quarterly Report on Form 10-Q for the fiscal quarter ended March 31, 2009, which are incorporated by reference into the accompanying prospectus.

	As of March 31, 2009		
Actual(1)	As Adjusted for the April 2009 offering(1)	As Adjusted for the April 2009 offering and this offering(1)(2)	
(dollars in thousands, except share and per share amounts)			
Stockholders' equity:			
Common stock: par value \$.01 per share; 500,000,000(3) shares authorized, 177,196,945, 472,401,769(4), and 645,125,786(4) shares issued and outstanding	\$ 1,761	\$ 4,713	\$ 6,440
Additional paid-in capital	832,070	1,680,028	2,212,509
Accumulated other comprehensive loss	(256,705)	(256,705)	(256,705)
Accumulated deficit	(144,300)	(144,300)	(144,300)
Total stockholders' equity	\$ 432,826	\$ 1,283,736	\$ 1,817,944

- (1) Does not include 1,127,875 unvested shares of restricted common stock granted pursuant to our equity incentive plan as of March 31, 2009.
- (2) Does not include the underwriters' option to purchase or place up to 25,200,000 additional shares.
- (3) On May 22, 2009, we amended our charter to raise the total number of authorized shares we are permitted to issue from 550,000,000 shares, of which 500,000,000 shares were classified as "Common Stock" and 50,000,000 shares were classified as "Preferred Stock," to 1,100,000,000 shares. Our authorized capital stock now consists of 1,100,000,000 shares of capital stock, of which 1,000,000,000 shares are classified as "Common Stock" and 100,000,000 shares are classified as "Preferred Stock."
- (4) Excludes 928 shares of restricted common stock granted pursuant to our equity incentive plan as of March 31, 2009, which were forfeited or cancelled subsequent to March 31, 2009.

UNDERWRITING

We intend to offer the shares through the underwriters. Merrill Lynch, Pierce, Fenner & Smith Incorporated, Credit Suisse Securities (USA) LLC, and Deutsche Bank Securities Inc. are acting as representatives of the underwriters named below. Subject to the terms and conditions described in a purchase agreement among us and the underwriters, we have agreed to sell to the underwriters and the underwriters severally have agreed to purchase from us, the number of shares listed opposite their names below.

Underwriter	Number of Shares
Merrill Lynch, Pierce, Fenner & Smith Incorporated	57,120,000
Credit Suisse Securities (USA) LLC	24,360,000
Deutsche Bank Securities Inc.	24,360,000
Citigroup Global Markets Inc.	18,480,000
Morgan Stanley & Co. Incorporated	18,480,000
UBS Securities LLC	18,480,000
JMP Securities LLC	3,360,000
Keefe, Bruyette & Woods, Inc.	3,360,000
Total	168,000,000

The underwriters have agreed to purchase all of the shares sold under the purchase agreement if any of these shares are purchased. If an underwriter defaults, the purchase agreement provides that the purchase commitments of the nondefaulting underwriters may be increased or the purchase agreement may be terminated.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933, as amended, or to contribute to payments the underwriters may be required to make in respect of those liabilities.

The underwriters are offering the shares, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the shares, and other conditions contained in the purchase agreement, such as the receipt by the underwriters of officer's certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

Commissions and Discounts

The representatives have advised us that the underwriters propose initially to offer the shares to the public at the public offering price on the cover page of this prospectus supplement and to dealers at that price less a concession not in excess of \$.07 per share. After the public offering, the public offering price, concession and discount may be changed.

The following table shows the public offering price, underwriting discount and proceeds, before expenses, to us. The information assumes either no exercise or full exercise by the underwriters of their over-allotment options.

	Per Share	Without Option	With Option
Public offering price	\$ 3.22	\$ 540,960,000	\$ 622,104,000
Underwriting discount	\$.1288	\$ 21,638,400	\$ 24,884,160
Proceeds, before expenses, to us	\$ 3.0912	\$ 519,321,600	\$ 597,219,840

The expenses of the offering, not including the underwriting discount, are estimated at \$325,000 and are payable by us.

Overallotment Option

We have granted options to the underwriters to purchase up to 25,200,000 additional shares at the public offering price less the underwriting discount. The underwriters may exercise these options for 30 days from the date of this prospectus supplement solely to cover any overallotments. If the underwriters exercise these options, each will be obligated, subject to conditions contained in the purchase agreement, to purchase a number of additional shares proportionate to that underwriter's initial amount reflected in the above table.

No Sales of Similar Securities

Pursuant to certain "lock-up" agreements, we and our executive officers and directors have agreed, subject to certain exceptions, not to offer, sell, contract to sell, announce any intention to sell, pledge or otherwise dispose of, directly or indirectly, any common shares or securities convertible into or exchangeable or exercisable for any common shares without the prior written consent of Merrill Lynch for a period of 90 days after the date of this prospectus supplement. Specifically, we and these other individuals have agreed, with certain exceptions, not to directly or indirectly:

- offer, pledge, sell or contract to sell any common stock;
- sell any option or contract to purchase any common stock;
- purchase any option or contract to sell any common stock;
- grant any option, right or warrant for the sale of any common stock;
- lend or otherwise dispose of or transfer any common stock; or
- enter into any swap or other agreement that transfers, in whole or in part, the economic consequence of ownership of any common stock whether any such swap or transaction is to be settled by delivery of shares or other securities, in cash or otherwise.

This lock-up provision applies to common stock and to securities convertible into or exchangeable or exercisable for or repayable with common stock. It also applies to common stock owned now or acquired later by the person executing the agreement or for which the person executing the agreement later acquires the power of disposition. The 90-day restricted period will be automatically extended if (1) during the last 17 days of the 90-day restricted period we issue an earnings release or material news or a material event relating to us occurs or prior to the expiration of the 90-day restricted period, we announce that we will release earnings results or become aware that material news or a material event will occur during the 16-day-period beginning on the last day of the 90-day restricted period, in which case the restrictions described above will continue to apply until the expiration of the 18-day period beginning on the issuance of the earnings release or the occurrence of the material news or a material event. The exceptions permit us, among other things and subject to restrictions, to: (a) issue common stock or options pursuant to our long term stock incentive plan or pursuant to the exercise of employee stock options or other awards and (b) issue common stock pursuant to a stock dividend reinvestment plan.

New York Stock Exchange Listing

Our shares of common stock are listed on the New York Stock Exchange under the symbol "CIM."

Price Stabilization, Short Positions

Until the distribution of the shares is completed, SEC rules may limit underwriters and selling group members from bidding for and purchasing our common stock. However, the representatives may engage in transactions that stabilize the price of the common stock, such as bids or purchases to peg, fix or maintain that price.

If the underwriters create a short position in the common stock in connection with the offering, i.e., if they sell more shares than are listed on the cover of this prospectus supplement, the representatives may reduce that short position by purchasing shares in the open market. The representatives may also elect to reduce any short position by exercising all or part of the overallotment option described above. Purchases of the common stock to stabilize its price or to reduce a short position may cause the price of the common stock to be higher than it might be in the absence of such purchases.

Neither we nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the common stock. In addition, neither we nor any of the underwriters make any representation that the representatives will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

Selling Restrictions

This prospectus supplement does not constitute an offer of, or an invitation by or on behalf of us, or by or on behalf of the underwriters, to subscribe for or purchase, any of the shares in any jurisdiction to any person to whom it is unlawful to make such an offer or solicitation in that jurisdiction. The distribution of this prospectus supplement and the offering of the shares in certain jurisdictions may be restricted by law. We and the underwriters require persons into whose possession this prospectus supplement comes to inform themselves about and to observe any such restrictions.

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (or, individually, a Relevant Member State), each underwriter has represented and agreed that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (or the Relevant Implementation Date) it has not made and will not make an offer of common stock to the public in that Relevant Member State prior to the publication of a prospectus in relation to the common stock which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, all in accordance with the Prospectus Directive, except that it may, with effect from and including the Relevant Implementation Date, make an offer of common stock to the public in that Relevant Member State at any time:

- to legal entities which are authorized or regulated to operate in the financial markets or, if not so authorized or regulated, whose corporate purpose is solely to invest in securities;
- to any legal entity which has two or more of (i) an average of at least 250 employees during the last financial year; (ii) a total balance sheet of more than €43,000,000 and (iii) an annual net turnover of more than €50,000,000, as shown in its last annual or consolidated accounts; or
- in any other circumstances which do not require the publication by the Issuer of a prospectus pursuant to Article 3 of the Prospectus Directive.

For the purposes of this provision, the expression an “offer of common stock to the public” in relation to any common stock in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the common stock to be offered so as to enable an investor to decide to purchase or subscribe the common stock, as the same may be varied in that Relevant Member State by any measure implementing the Prospectus Directive in that Relevant Member State and the expression Prospectus Directive means Directive 2003/71/EC and includes any relevant implementing measure in each Relevant Member State.

Each underwriter has represented and agreed that:

- it has not made and will not make an offer of the common stock to the public in the United Kingdom prior to the publication of a prospectus in relation to the common stock and the offer that has been approved by the FSA or, where appropriate, approved in another Member State and notified to the FSA, all in accordance with the Prospectus Directive, except that it may make an offer of the common stock to persons who fall within the definition of “qualified investor” as that term is defined in Section 86 (7) of FSMA, or otherwise in circumstances which do not result in an offer of transferable securities to the public in the United Kingdom within the meaning of FSMA;
- it has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of Section 21 of FSMA) received by it in connection with the issue or sale of any common stock in circumstances in which Section 21(1) of FSMA does not apply to it; and

- it has complied and will comply with all applicable provisions of FSMA with respect to anything done by it in relation to the common stock in, from or otherwise involving the United Kingdom.

Internet Distribution

Merrill Lynch will be facilitating internet distribution for this offering to certain of its internet subscription customers. Merrill Lynch intends to allocate a limited number of shares for sale to its online brokerage customers. An electronic prospectus supplement is available on the internet web site maintained by Merrill Lynch. Other than the prospectus supplement in electronic format, the information on the Merrill Lynch web site is not part of this prospectus supplement.

Other Relationships

Certain of the underwriters and their respective affiliates have, from time to time, performed, and may in the future perform, various financial advisory and investment banking services for us and our affiliates, for which they received or will receive customary fees and expenses. In addition, Merrill Lynch, Pierce, Fenner & Smith Incorporated, Credit Suisse Securities (USA) LLC, Deutsche Bank Securities Inc., Citigroup Global Markets Inc., Morgan Stanley & Co. Incorporated, and UBS Securities LLC or their respective affiliates have been, may be, or are lenders under one or more of our secured repurchase credit facilities, and we have entered into interest rate swap agreements with certain of the underwriters or their affiliates. Certain of the underwriters and their respective affiliates are or have been counterparties to securities and other trading activities with us and our affiliates.

LEGAL MATTERS

Certain legal matters relating to this offering will be passed upon for us by K&L Gates LLP, Washington, D.C. In addition, the opinion of counsel described in the section of the accompanying prospectus entitled "Material Federal Income Tax Considerations" is being rendered by K&L Gates LLP, Washington, D.C. and the description of federal income tax consequences contained in the section of the accompanying prospectus entitled "Material Federal Income Tax Considerations" is based on the opinion of K&L Gates LLP, Washington, D.C. Certain legal matters relating to this offering will be passed upon for the underwriters by Fried, Frank, Harris, Shriver & Jacobson LLP, New York, New York.

Common Stock and Preferred Stock

By this prospectus, we may offer, from time to time, shares of our:

- common stock;
- preferred stock; or
- any combination of the foregoing.

We will provide specific terms of each issuance of these securities in supplements to this prospectus. You should read this prospectus and any supplement carefully before you decide to invest.

This prospectus may not be used to consummate sales of these securities unless it is accompanied by a prospectus supplement.

The New York Stock Exchange lists our common stock under the symbol "CIM."

To assist us in qualifying as a real estate investment trust (or REIT) for federal income tax purposes, no person may own more than 9.8% of the outstanding shares of any class of our common stock or our preferred stock, unless our Board of Directors waives this limitation.

Investing in these securities involves risks. You should carefully consider the information referred to under the heading "Risk Factors" beginning on page 4 of this prospectus.

We may sell these securities to or through underwriters, dealers or agents, or we may sell the securities directly to investors on our own behalf.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this prospectus is May 26, 2009

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we filed with the Securities and Exchange Commission (or SEC) using a “shelf” registration process. Under this process, we may offer and sell any combination of common stock and preferred stock in one or more offerings. This prospectus provides you with a general description of the securities we may offer. Each time we offer to sell securities, we will provide a supplement to this prospectus that will contain specific information about the terms of that offering. The prospectus supplement may also add, update or change information contained in this prospectus. It is important for you to consider the information contained in this prospectus and any prospectus supplement together with additional information described under the heading “Where You Can Find More Information.”

You should rely only on the information incorporated by reference or set forth in this prospectus or the applicable prospectus supplement. We have not authorized anyone else to provide you with additional or different information. You should not assume that the information in this prospectus, the applicable prospectus supplement or any other offering material is accurate as of any date other than the dates on the front of those documents.

A WARNING ABOUT FORWARD-LOOKING STATEMENTS

Certain statements contained in this prospectus, any prospectus supplement and any other offering material, and the information incorporated by reference in this prospectus, any prospectus supplement and/or any other offering material, and certain statements contained in our future filings with the Securities and Exchange Commission (the "SEC" or the "Commission"), in our press releases or in our other public or shareholder communications may not be based on historical facts and are "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (or the Exchange Act). Forward-looking statements, which are based on various assumptions (some of which are beyond our control), may be identified by reference to a future period or periods or by the use of forward-looking terminology, such as "may," "will," "believe," "expect," "anticipate," "continue," or similar terms or variations on those terms or the negative of those terms. Actual results could differ materially from those set forth in forward-looking statements due to a variety of factors, including, but not limited to:

- our business and investment strategy;
- our projected financial and operating results;
- our ability to maintain existing financing arrangements, obtain future financing arrangements and the terms of such arrangements;
- general volatility of the securities markets in which we invest;
- the implementation, timing and impact of, and changes to, various government programs, including the Treasury's plan to buy U.S. government agency residential mortgage-backed securities and its Public-Private Investment Program, and the Federal Reserve Board's Term Asset-Backed Securities Loan Facility;
- our expected investments;
- changes in the value of our investments;
- interest rate mismatches between our investments and our borrowings used to fund such purchases;
- changes in interest rates and mortgage prepayment rates;
- effects of interest rate caps on our adjustable-rate investments;
- rates of default or decreased recovery rates on our investments;
- prepayments of the mortgage and other loans underlying our mortgage-backed or other asset-backed securities;
- the degree to which our hedging strategies may or may not protect us from interest rate volatility;
- impact of and changes in governmental regulations, tax law and rates, accounting guidance, and similar matters;
- availability of investment opportunities in real estate-related and other securities;

- availability of qualified personnel;
- estimates relating to our ability to make distributions to our stockholders in the future;
- our understanding of our competition;
- market trends in our industry, interest rates, the debt securities markets or the general economy; and
- use of proceeds of our offerings.

For a discussion of the risks and uncertainties which could cause actual results to differ from those contained in the forward-looking statements, please see the information under the caption "Risk Factors" described in our Annual Report on Form 10-K for the fiscal year ended December 31, 2008 and any subsequent report incorporated by reference in this prospectus. We do not undertake, and specifically disclaim any obligation, to publicly release the result of any revisions which may be made to any forward-looking statements to reflect the occurrence of anticipated or unanticipated events or circumstances after the date of such statements.

ABOUT CHIMERA INVESTMENT CORPORATION

Our Company

We are a specialty finance company that invests in residential mortgage-backed securities, or RMBS, residential mortgage loans, real estate-related securities and various other asset classes. We elected to be taxed as a real estate investment trust, or REIT, for federal income tax purposes commencing with our taxable year ending on December 31, 2007. Therefore, we generally will not be subject to federal income tax on our taxable income that is distributed to our stockholders. We commenced operations in November 2007.

We are externally managed by Fixed Income Discount Advisory Company, which we refer to as our Manager or FIDAC. Our Manager is an investment advisor registered with the Securities and Exchange Commission, or SEC. Additionally, our Manager is a wholly-owned subsidiary of Annaly Capital Management, Inc., a New York Stock Exchange-listed REIT, which has a long track record of managing investments in U.S. government agency RMBS, or Agency RMBS.

Our Manager is responsible for administering our business activities and day-to-day operations. We have no employees other than our officers. Pursuant to the terms of the management agreement, our Manager provides us with our management team, including our officers, along with appropriate support personnel. Our Manager is at all times subject to the supervision and oversight of our board of directors and has only such functions and authority as we delegate to it. We do not pay any of our officers any cash compensation. Rather, we pay our Manager a management fee pursuant to the terms of the management agreement.

Our objective is to provide attractive risk-adjusted returns to our investors over the long-term, primarily through dividends and secondarily through capital appreciation. We intend to achieve this objective by investing in a diversified investment portfolio of RMBS; residential mortgage loans; including prime mortgage loans, which are mortgage loans that conform to the underwriting guidelines of Fannie Mae and Freddie Mac, which we refer to as Agency Guidelines; jumbo prime mortgage loans, which are mortgage loans that conform to the Agency Guidelines except as to loan size; and Alt-A mortgage loans, which are mortgage loans that may have been originated using documentation standards that are less stringent than the documentation standards applied by certain other first lien mortgage loan purchase programs, such as the Agency Guidelines, but have one or more compensating factors such as a borrower with a strong credit or mortgage history or significant assets; real estate-related securities; and various other asset classes, subject to maintaining our REIT status and exemption from registration under the Investment Company Act of 1940. The RMBS, asset-backed securities (ABS), commercial mortgage-backed securities (CMBS) and collateralized debt obligations (CDOs) we purchase may include investment-grade and non-investment grade classes, including the BB-rated, B-rated and non-rated classes.

Our Corporate Information

We are a Maryland corporation formed in June 2007 and commenced operations in November 2007. Our principal executive offices are located at 1211 Avenue of Americas, Suite

RISK FACTORS

Investing in our securities involves risks. You should carefully consider the risks described under "Risk Factors" in our most recent Annual Report on Form 10-K and any subsequent Quarterly Reports on Form 10-Q (which descriptions are incorporated by reference herein), as well as the other information contained or incorporated by reference in this prospectus or in any prospectus supplement hereto before making a decision to invest in our securities. See "Where You Can Find More Information" below.

USE OF PROCEEDS

Unless otherwise indicated in an accompanying prospectus supplement, we intend to use the net proceeds from the sale of the securities offered by this prospectus and the related accompanying prospectus supplement to finance the acquisition of non-Agency RMBS, Agency RMBS, prime and Alt-A mortgage loans, CMBS, CDOs and other consumer or non-consumer ABS, and for other general corporate purposes such as repayment of outstanding indebtedness, working capital, and for liquidity needs. Pending any such uses, we may invest the net proceeds from the sale of any securities in interest-bearing short-term investments, including money market accounts that are consistent with our intention to qualify as a REIT, or may use them to reduce our indebtedness.

RATIO OF EARNINGS TO COMBINED FIXED CHARGES AND PREFERRED STOCK DIVIDENDS

The following table sets forth our ratios of earnings to combined fixed charges and preferred stock dividends for each of the periods indicated:

	For the period November 21, 2007 (date operations commenced) through December 31, 2007	For the year ended December 31, 2008	For the three months ended March 31, 2009
Ratio of earnings to combined fixed charges and preferred stock dividends	(5.99)x(1)	(0.98)x(2)	3.09x

(1) The dollar amount of the deficiency for this period was \$2,486,000.

(2) The dollar amount of the deficiency for the year ended December 31, 2008 was \$59,253,000.

The ratios of earnings to combined fixed charges and preferred stock dividends were computed by dividing earnings as adjusted by fixed charges and preferred stock dividends (where applicable). For this purpose, earnings consist of net income from continuing operations and fixed charges. We currently have no shares of preferred stock outstanding and, therefore,

there are no amounts for preferred dividends included in the above calculation. Fixed charges consist of interest expense.

DESCRIPTION OF CAPITAL STOCK

The following summary description of our capital stock does not purport to be complete and is subject to and qualified in its entirety by reference to the Maryland General Corporation Law, or MGCL, and our charter and our bylaws, copies of which will be available before the closing of this offering from us upon request. See "Where You Can Find More Information."

The MGCL and our charter and bylaws contain provisions that could make it more difficult for a potential acquirer to acquire us by a tender offer, proxy contest or otherwise. These provisions are expected to discourage certain coercive takeover practices and inadequate takeover bids and to encourage persons seeking to acquire control of us to negotiate first with our board of directors. We believe that the benefits of these provisions outweigh the potential disadvantages of discouraging any such acquisition proposals because, among other things, the negotiation of such proposals may improve their terms.

General

Our charter provides that we may issue up to 550,000,000 shares of stock, consisting of up to 500,000,000 shares of common stock having a par value of \$0.01 per share and up to 50,000,000 shares of preferred stock having a par value of \$0.01 per share. As of May 22, 2009, 472,401,769 shares of common stock and no shares of preferred stock were issued and outstanding. Our board of directors, with the approval of a majority of the entire board and without any action on the part of our stockholders, may amend our charter from time to time to increase or decrease the aggregate number of shares of stock or the number of shares of stock of any class or series that we have authority to issue. Under Maryland law, our stockholders generally are not personally liable for our debts and obligations solely as a result of their status as stockholders.

Common Stock

All shares of our common stock have equal rights as to earnings, assets, dividends and voting and, when they are issued, will be duly authorized, validly issued, fully paid and non-assessable. Distributions may be paid to the holders of our common stock if, as and when authorized by our board of directors and declared by us out of funds legally available therefor. Shares of our common stock have no preemptive, appraisal, preferential exchange, conversion or redemption rights and are freely transferable, except where their transfer is restricted by federal and state securities laws, by contract or by the restrictions in our charter. In the event of our liquidation, dissolution or winding up, each share of our common stock would be entitled to share ratably in all of our assets that are legally available for distribution after payment of or adequate provision for all of our known debts and other liabilities and subject to any preferential rights of holders of our preferred stock, if any preferred stock is outstanding at such time. Subject to our charter restrictions on the transfer and ownership of our stock and except as may otherwise be specified in the terms of any class or series of common stock, each share of our common stock entitles the holder to one vote on all matters submitted to a vote of stockholders,

including the election of directors. Except as provided with respect to any other class or series of stock, the holders of our common stock will possess exclusive voting power. There is no cumulative voting in the election of directors, which means that holders of a majority of the outstanding shares of common stock can elect all of our directors, and holders of less than a majority of such shares will be unable to elect any director.

Preferred Stock

The following description sets forth general terms and provisions of the preferred stock to which any prospectus supplement may relate. The statements below describing the preferred stock are in all respects subject to and qualified in their entirety by reference to our charter, as amended, by-laws, as amended, and any articles supplementary to our charter, as amended, designating terms of a series of preferred stock. The preferred stock, when issued, will be validly issued, fully paid, and non-assessable. Because our board of directors has the power to establish the preferences, powers and rights of each series of preferred stock, our board of directors may afford the holders of any series of preferred stock preferences, powers and rights, voting or otherwise, senior to the rights of common stockholders.

The rights, preferences, privileges and restrictions of each series of preferred stock will be fixed by the articles supplementary relating to the series. A prospectus supplement, relating to each series, will specify the terms of the preferred stock, as follows:

- the title and stated value of the preferred stock;
- the voting rights of the preferred stock, if applicable;
- the preemptive rights of the preferred stock, if applicable;
- the restrictions on alienability of the preferred stock, if applicable;
- the number of shares offered, the liquidation preference per share and the offering price of the shares;
- liability to further calls or assessment of the preferred stock, if applicable;
- the dividend rate(s), period(s) and payment date(s) or method(s) of calculation applicable to the preferred stock;
- the date from which dividends on the preferred stock will accumulate, if applicable;
- the procedures for any auction and remarketing for the preferred stock;
- the provision for a sinking fund, if any, for the preferred stock;
- the provision for and any restriction on redemption, if applicable, of the preferred stock;
- the provision for and any restriction on repurchase, if applicable, of the preferred stock;

- any listing of the preferred stock on any securities exchange;
- the terms and provisions, if any, upon which the preferred stock will be convertible into common stock, including the conversion price (or manner of calculation) and conversion period;
- the terms under which the rights of the preferred stock may be modified, if applicable;
- any other specific terms, preferences, rights, limitations or restrictions of the preferred stock;
- a discussion of certain material federal income tax considerations applicable to the preferred stock;
- the relative ranking and preferences of the preferred stock as to dividend rights and rights upon the liquidation, dissolution or winding-up of our affairs;
- any limitation on issuance of any series of preferred stock ranking senior to or on a parity with the series of preferred stock as to dividend rights and rights upon the liquidation, dissolution or winding-up of our affairs; and
- any limitations on direct or beneficial ownership and restrictions on transfer of the preferred stock, in each case as may be appropriate to preserve our qualification as a REIT.

Power to Reclassify Shares of Our Stock

Our charter authorizes our board of directors to classify and reclassify any unissued shares of stock into other classes or series of stock, including preferred stock. Before issuance of shares of each class or series, the board of directors is required by Maryland law and by our charter to set, subject to our charter restrictions on the transfer and ownership of our stock, the terms, preferences, conversion or other rights, voting powers, restrictions, limitations as to dividends or other distributions, qualifications and terms or conditions of redemption for each class or series. Thus, the board of directors could authorize the issuance of shares of common stock or preferred stock with terms and conditions which could have the effect of delaying, deferring or preventing a transaction or a change in control that might involve a premium price for holders of our common stock or otherwise be in their best interests. No shares of our preferred stock are presently outstanding and we have no present plans to issue any preferred stock.

Power to Issue Additional Shares of Common Stock and Preferred Stock

We believe that the power of our board of directors to amend the charter without stockholder approval to increase the total number of authorized shares of our stock or any class or series of our stock, to issue additional authorized but unissued shares of our common stock or preferred stock and to classify or reclassify unissued shares of our common stock or preferred stock and thereafter to cause us to issue such classified or reclassified shares of stock will

provide us with increased flexibility in structuring possible future financings and acquisitions and in meeting other needs which might arise. The additional classes or series, as well as our common stock, will be available for issuance without further action by our stockholders, unless stockholder action is required by applicable law or the rules of any stock exchange or automated quotation system on which our securities may be listed or traded. Although our board of directors has no intention at the present time of doing so, it could authorize us to issue a class or series that could, depending upon the terms of such class or series, delay, defer or prevent a transaction or a change in control of us that might involve a premium price for holders of our common stock or otherwise be in their best interests.

Restrictions on Ownership and Transfer

To qualify as a REIT under the Internal Revenue Code for each taxable year beginning after December 31, 2007, our shares of capital stock must be beneficially owned by 100 or more persons during at least 335 days of a taxable year of 12 months or during a proportionate part of a shorter taxable year. Also, beginning after December 31, 2007, no more than 50% of the value of our outstanding shares of capital stock may be owned, directly or constructively, by five or fewer individuals (as defined in the Internal Revenue Code to include certain entities) during the second half of any calendar year.

Our charter, subject to certain exceptions, contains restrictions on the number of shares of our capital stock that a person may own. Our charter provides that (subject to certain exceptions described below) no person may own, or be deemed to own by the attribution provisions of the Internal Revenue Code, more than 9.8% in value or in number of shares, whichever is more restrictive, of any class or series of our capital stock.

Our charter also prohibits any person from (i) beneficially or constructively owning shares of our capital stock that would result in our being “closely held” under Section 856(h) of the Internal Revenue Code or otherwise cause us to fail to qualify as a REIT and (ii) transferring shares of our capital stock if such transfer would result in our capital stock being owned by fewer than 100 persons. Any person who acquires or attempts or intends to acquire beneficial or constructive ownership of shares of our capital stock that will or may violate any of the foregoing restrictions on transferability and ownership, or who is the intended transferee of shares of our stock which are transferred to the trust (as described below), will be required to give notice immediately to us and provide us with such other information as we may request to determine the effect of such transfer on our status as a REIT. The foregoing restrictions on transferability and ownership will not apply if our board of directors determines that it is no longer in our best interests to attempt to qualify, or to continue to qualify, as a REIT.

Our board of directors, in its sole discretion, may exempt a person from the foregoing restrictions. The person seeking an exemption must provide to our board of directors such representations, covenants and undertakings as our board of directors may deem appropriate to conclude that granting the exemption will not cause us to lose our status as a REIT. Our board of directors may also require a ruling from the Internal Revenue Service or an opinion of counsel to determine or ensure our status as a REIT.

Any attempted transfer of our securities which, if effective, would result in a violation of the foregoing restrictions will cause the number of securities causing the violation (rounded to the nearest whole share) to be automatically transferred to a trust for the exclusive benefit of one or more charitable beneficiaries, and the proposed transferee will not acquire any rights in such securities. The automatic transfer will be deemed to be effective as of the close of business on the business day (as defined in our charter) before the date of the transfer. If, for any reason, the transfer to the trust is ineffective, our charter provides that the purported transfer in violation of the restrictions will be void *ab initio*. Shares of our stock held in the trust will be issued and outstanding shares. The proposed transferee will not benefit economically from ownership of any securities held in the trust, will have no rights to dividends and no rights to vote or other rights attributable to the shares of stock held in the trust. The trustee of the trust will have all voting rights and rights to dividends or other distributions with respect to shares held in the trust. These rights will be exercised for the exclusive benefit of the charitable beneficiary. Any dividend or other distribution paid before our discovery that shares of stock have been transferred to the trust will be paid by the recipient to the trustee upon demand. Any dividend or other distribution authorized but unpaid will be paid when due to the trustee. Any dividend or distribution paid to the trustee will be held in trust for the charitable beneficiary. Subject to Maryland law, the trustee will have the authority (i) to rescind as void any vote cast by the proposed transferee before our discovery that the shares have been transferred to the trust and (ii) to recast the vote in accordance with the desires of the trustee acting for the benefit of the charitable beneficiary. However, if we have already taken irreversible corporate action, then the trustee will not have the authority to rescind and recast the vote.

Within 20 days of receiving notice from us that the securities have been transferred to the trust, the trustee will sell the securities to a person designated by the trustee, whose ownership of the securities will not violate the above ownership limitations. Upon such sale, the interest of the charitable beneficiary in the securities sold will terminate and the trustee will distribute the net proceeds of the sale to the proposed transferee and to the charitable beneficiary as follows. The proposed transferee will receive the lesser of (i) the price paid by the proposed transferee for the securities or, if the proposed transferee did not give value for the securities in connection with the event causing the securities to be held in the trust (e.g., a gift, devise or other similar transaction), the market price (as defined in our charter) of the securities on the day of the event causing the securities to be held in the trust and (ii) the price received by the trustee from the sale or other disposition of the securities. The trustee may reduce the amount payable to the proposed transferee by the amount of dividends and distributions paid to the proposed transferee and owed by the proposed transferee to the trustee. Any net sale proceeds in excess of the amount payable to the proposed transferee will be paid immediately to the charitable beneficiary. If, before our discovery that the securities have been transferred to the trust, the securities are sold by the proposed transferee, then (i) the securities shall be deemed to have been sold on behalf of the trust and (ii) to the extent that the proposed transferee received an amount for the securities that exceeds the amount the proposed transferee was entitled to receive, the excess shall be paid to the trustee upon demand.

In addition, the securities held in the trust will be deemed to have been offered for sale to us, or our designee, at a price per share equal to the lesser of (i) the price per share in the transaction that resulted in the transfer to the trust (or, in the case of a devise or gift, the market price at the time of the devise or gift) and (ii) the market price on the date we, or our designee,

accept the offer. We may reduce the amount payable to the proposed transferee, however, by the amount of any dividends or distributions paid to the proposed transferee on the securities and owed by the proposed transferee to the trustee. We will have the right to accept the offer until the trustee has sold the securities. Upon a sale to us, the interest of the charitable beneficiary in the securities sold will terminate and the trustee will distribute the net proceeds of the sale to the proposed transferee.

All certificates representing the securities will bear a legend referring to the restrictions described above or will state that we will furnish a full statement about certain transfer restrictions to a stockholder upon request and without charge.

Every owner of more than 5% (or such lower percentage as required by the Internal Revenue Code or the regulations promulgated thereunder) in value of all classes or series of our stock, including shares of common stock, within 30 days after the end of each taxable year, will be required to give written notice to us stating the name and address of such owner, the number of shares of each class and series of shares of our stock which the owner beneficially owns and a description of the manner in which the shares are held. Each owner shall provide to us such additional information as we may request to determine the effect, if any, of the beneficial ownership on our status as a REIT and to ensure compliance with the ownership limitations. In addition, each such owner shall upon demand be required to provide to us such information as we may request, in good faith, to determine our status as a REIT and to comply with the requirements of any taxing authority or governmental authority or to determine such compliance.

These ownership limitations could delay, defer or prevent a transaction or a change in control that might involve a premium price for the common stock or might otherwise be in your best interests.

Classification of Board of Directors, Vacancies and Removal of Directors

Our charter and by-laws, as amended, provide for a staggered Board of Directors consisting of up to fifteen directors. Our charter provides that our directors shall be divided into three classes, with terms of three years each. The number of directors in each class and the expiration of each class term is as follows:

Class I	2 Directors	Expires 2011
Class II	2 Directors	Expires 2009
Class III	1 Directors	Expires 2010

At each annual meeting of our stockholders, successors of the class of directors whose term expires at that meeting will be elected for a three-year term and the directors in the other two classes will continue in office. A classified Board of Directors may delay, defer or prevent a change in control or other transaction that might involve a premium over the then prevailing market price for our common stock or other attributes that our stockholders may consider desirable. In addition, a classified Board of Directors could prevent stockholders who do not agree with the policies of our Board of Directors from replacing a majority of the Board of Directors for two years, except in the event of removal for cause.

Our by-laws, as amended, provide that any vacancy on our Board of Directors may be filled by a majority of the remaining directors. Any individual so elected director will hold office for the unexpired term of the director he or she is replacing. Our by-laws, as amended, provide that a director may be removed at any time only for cause upon the affirmative vote of at least two-thirds of the votes entitled to be cast in the election of directors, but only by a vote taken at a stockholder meeting. These provisions preclude stockholders from removing incumbent directors, except for cause and upon a substantial affirmative vote, and filling the vacancies created by such removal with their own nominees.

Indemnification

Our amended and restated charter obligates us to indemnify our directors and officers and to pay or reimburse expenses for them before the final disposition of a proceeding to the maximum extent permitted by Maryland law. The Corporations and Associations Article of the Annotated Code of Maryland (or the Maryland General Corporation Law) permits a corporation to indemnify its present and former directors and officers against judgments, penalties, fines, settlements and reasonable expenses actually incurred by them in connection with any proceeding to which they may be made a party by reason of their service in those or other capacities, unless it is established that (1) the act or omission of the director or officer was material to the matter giving rise to the proceeding and (a) was committed in bad faith, or (b) was the result of active and deliberate dishonesty, or (2) the director or officer actually received an improper personal benefit in money, property or services, or (3) in the case of any criminal proceeding, the director or officer had reasonable cause to believe that the act or omission was unlawful.

Limitation of Liability

The Maryland General Corporation Law permits the charter of a Maryland corporation to include a provision limiting the liability of its directors and officers to the corporation and its stockholders for money damages, except to the extent that (1) it is proved that the person actually received an improper benefit or profit in money, property or services, or (2) a judgment or other final adjudication adverse to the person is entered in a proceeding based on a finding that the person's action, or failure to act, was the result of active and deliberate dishonesty and was material to the cause of action adjudicated in the proceeding. Our amended and restated charter provides for elimination of the liability of our directors and officers to us or our stockholders for money damages to the maximum extent permitted by Maryland law from time to time.

Maryland Business Combination Act

The Maryland General Corporation Law establishes special requirements for "business combinations" between a Maryland corporation and "interested stockholders" unless exemptions are applicable. An interested stockholder is any person who beneficially owns 10% or more of the voting power of our then outstanding voting stock. Among other things, the law prohibits for a period of five years a merger and other similar transactions between us and an interested stockholder unless the Board of Directors approved the transaction prior to the party becoming an interested stockholder. The five-year period runs from the most recent date on which the interested stockholder became an interested stockholder. The law also requires a supermajority

stockholder vote for such transactions after the end of the five-year period. This means that the transaction must be approved by at least:

- 80% of the votes entitled to be cast by holders of outstanding voting shares; and
- two-thirds of the votes entitled to be cast by holders of outstanding voting shares other than shares held by the interested stockholder or an affiliate of the interested stockholder with whom the business combination is to be effected.

As permitted by the Maryland General Corporation Law, we have elected not to be governed by the Maryland business combination statute. We made this election by opting out of this statute in our charter, as amended. If, however, we amend our charter to opt back in to the statute, the business combination statute could have the effect of discouraging offers to acquire us and of increasing the difficulty of consummating any such offers, even if our acquisition would be in our stockholders' best interests.

Maryland Control Share Acquisition Act

Maryland law provides that "control shares" of a Maryland corporation acquired in a "control share acquisition" have no voting rights except to the extent approved by a vote of the other stockholders. Two-thirds of the shares eligible to vote must vote in favor of granting the "control shares" voting rights. "Control shares" are shares of stock that, taken together with all other shares of stock the acquirer previously acquired, would entitle the acquirer to exercise voting power in electing directors within one of the following ranges of voting power:

- one-tenth or more but less than one-third of all voting power;
- one-third or more but less than a majority of all voting power; or
- a majority or more of all voting power.

Control shares do not include shares of stock the acquiring person is entitled to vote as a result of having previously obtained stockholder approval. A "control share acquisition" means the acquisition of control shares, subject to certain exceptions.

If a person who has made (or proposes to make) a control share acquisition satisfies certain conditions (including agreeing to pay expenses), he may compel our Board of Directors to call a special meeting of stockholders to consider the voting rights of the shares. If such a person makes no request for a meeting, we have the option to present the question at any stockholders' meeting.

If voting rights are not approved at a meeting of stockholders then, subject to certain conditions and limitations, we may redeem any or all of the control shares (except those for which voting rights have previously been approved) for fair value. We will determine the fair value of the shares, without regard to the absence of voting rights, as of the date of either:

- the last control share acquisition; or

- the meeting where stockholders considered and did not approve voting rights of the control shares.

If voting rights for control shares are approved at a stockholders' meeting and the acquirer becomes entitled to vote a majority of the shares of stock entitled to vote, all other stockholders may obtain rights as objecting stockholders and, thereunder, exercise appraisal rights. This means that you would be able to force us to redeem your stock for fair value. Under Maryland law, the fair value may not be less than the highest price per share paid in the control share acquisition. Furthermore, certain limitations otherwise applicable to the exercise of dissenters' rights would not apply in the context of a control share acquisition. The control share acquisition statute would not apply to shares acquired in a merger, consolidation or share exchange if we were a party to the transaction. The control share acquisition statute could have the effect of discouraging offers to acquire us and of increasing the difficulty of consummating any such offers, even if our acquisition would be in our stockholders' best interests.

Transfer Agent and Registrar

Mellon Investor Services LLC, 480 Washington Blvd., Jersey City, New Jersey 07310, is the transfer agent and registrar for our stock. Its telephone number is (800) 522-6645.

MATERIAL FEDERAL INCOME TAX CONSIDERATIONS

This section summarizes the material federal income tax considerations that you, as an Owner (as defined in the immediately succeeding paragraph) of shares of capital stock, may consider relevant. K&L Gates LLP has acted as our tax counsel, has reviewed this section and is of the opinion that the discussion contained herein fairly summarizes the federal income tax consequences that are likely to be material to an Owner of our shares of capital stock. Because this section is a summary, it does not address all aspects of taxation that may be relevant to particular Owners of our capital stock in light of their personal investment or tax circumstances, or to certain types of Owners that are subject to special treatment under the federal income tax laws, such as insurance companies, tax-exempt organizations (except to the extent discussed in “—Taxation of Owners,—Taxation of Tax-Exempt Owners” below), regulated investment companies, partnerships and other pass-through entities (including entities classified as partnerships for federal income tax purposes), financial institutions or broker-dealers, and non-U.S. individuals and foreign corporations (except to the extent discussed in “—Taxation of Owners,—Taxation of Foreign Owners” below) and other persons subject to special tax rules.

You should be aware that in this section, when we use the term:

- “Code,” we mean the Internal Revenue Code of 1986, as amended;
- “Disqualified organization,” we mean any organization described in section 860E(e)(5) of the Code, including:
 - i. the United States;
 - ii. any state or political subdivision of the United States;
 - iii. any foreign government;

- iv. any international organization;
 - v. any agency or instrumentality of any of the foregoing;
 - vi. any charitable remainder trust or other tax-exempt organization, other than a farmer's cooperative described in section 521 of the Code, that is exempt both from income taxation and from taxation under the unrelated business taxable income provisions of the Code; and
 - vii. any rural electrical or telephone cooperative;
- "Domestic Owner," we mean an Owner that is a U.S. Person;
 - "Foreign Owner," we mean an Owner that is not a U.S. Person;
 - "IRS," we mean the Internal Revenue Service;
 - "Owner," we mean any person having a beneficial ownership interest in shares of our capital stock;
 - "TMP," we mean a taxable mortgage pool as that term is defined in section 7701(i)(2) of the Code;
 - "TRS," we mean a taxable REIT subsidiary described under "—Requirements for Qualification—Taxable REIT Subsidiaries" below;
 - "U.S. Person," we mean (i) a citizen or resident of the United States; (ii) a corporation (or entity treated as a corporation for federal income tax purposes) created or organized in the United States or under the laws of the United States or of any state thereof, including, for this purpose, the District of Columbia; (iii) a partnership (or entity treated as a partnership for tax purposes) organized in the United States or under the laws of the United States or of any state thereof, including, for this purpose, the District of Columbia (unless provided otherwise by future Treasury regulations); (iv) an estate whose income is includible in gross income for federal income tax purposes regardless of its source; or (v) a trust, if a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. Persons have authority to control all substantial decisions of the trust. Notwithstanding the preceding clause, to the extent provided in Treasury regulations, certain trusts that were in existence on August 20, 1996, that were treated as U.S. Persons prior to such date, and that elect to continue to be treated as U.S. Persons, also are U.S. Persons.

The statements in this section and the opinion of K&L Gates LLP are based on the current federal income tax laws. We cannot assure you that new laws, interpretations of law or court decisions, any of which may take effect retroactively, will not cause any statement in this section to be inaccurate. No assurance can be given that the IRS would not assert, or that a court would not sustain, a position contrary to any of the tax consequences described below. We have not sought and will not seek an advance ruling from the IRS regarding any matter in this prospectus.

This summary provides general information only and is not tax advice. We urge you to consult your tax advisor regarding the specific tax consequences to you of the purchase,

ownership and sale of our capital stock and of our election to be taxed as a REIT. Specifically, you should consult your tax advisor regarding the federal, state, local, foreign, and other tax consequences of such purchase, ownership, sale and election, and regarding potential changes in applicable tax laws.

Taxation of Our Company

We have elected to be taxed as a REIT under Sections 856 through 860 of the Code commencing with our short taxable year ending on December 31, 2007. We believe that we were organized and have operated and will continue to operate in such a manner as to qualify for taxation as a REIT under the federal income tax laws, but no assurances can be given that we will operate in a manner so as to qualify or remain qualified as a REIT. This section discusses the laws governing the federal income tax treatment of a REIT and the owners of REIT stock. These laws are highly technical and complex.

In the opinion of K&L Gates LLP, our counsel, we have qualified to be taxed as a REIT beginning with our taxable year ended on December 31, 2007, and our organization and current and proposed method of operation will enable us to continue to meet the requirements for qualification and taxation as a REIT. Investors should be aware that K&L Gates LLP's opinion is based upon customary assumptions, is conditioned upon certain representations made by us as to factual matters, including representations regarding the nature of our assets and the conduct of our business, and is not binding upon the IRS or any court.

In addition, K&L Gates LLP's opinion is based on existing federal income tax law governing qualification as a REIT, which is subject to change either prospectively or retroactively. Moreover, our qualification and taxation as a REIT depend upon our ability to meet on a continuing basis, through actual annual operating results, certain qualification tests set forth in the federal income tax laws. Those qualification tests involve the percentage of income that we earn from specified sources, the percentage of our assets that falls within specified categories, the diversity of our stock ownership, and the percentage of our earnings that we distribute. K&L Gates LLP will not review our compliance with those tests on a continuing basis. Accordingly, no assurance can be given that our actual results of operations for any particular taxable year will satisfy such requirements. For a discussion of the tax consequences of our failure to qualify as a REIT, see "—Failure to Qualify."

If we qualify as a REIT, we generally will not be subject to federal income tax on our taxable income that we currently distribute to our stockholders, but taxable income generated by our domestic TRSs, if any, will be subject to regular federal (and applicable state and local) corporate income tax. However, we will be subject to federal tax in the following circumstances:

- We will pay federal income tax on our taxable income, including net capital gain, that we do not distribute to stockholders during, or within a specified time period after, the calendar year in which the income is earned.
- We may be subject to the "alternative minimum tax."
- We will pay federal income tax at the highest corporate rate on:

- net income from the sale or other disposition of property acquired through foreclosure, which we refer to as foreclosure property, that we hold primarily for sale to customers in the ordinary course of business, and
 - other non-qualifying income from foreclosure property.
 - We will pay a 100% tax on net income earned from sales or other dispositions of property, other than foreclosure property, that we hold primarily for sale to customers in the ordinary course of business.
 - If we fail to satisfy the 75% gross income test or the 95% gross income test, as described below under “—Gross Income Tests,” but nonetheless continue to qualify as a REIT because we meet other requirements, we will be subject to a 100% tax on:
 - the greater of the amount by which we fail the 75% gross income test or the 95% gross income test, multiplied, in either case, by
 - a fraction intended to reflect our profitability.
 - If we fail to satisfy the asset tests by more than a de minimis amount, as described below under “—Asset Tests,” as long as the failure was due to reasonable cause and not to willful neglect, we dispose of the assets or otherwise comply with such asset tests within six months after the last day of the quarter in which we identify such failure and we file a schedule with the IRS describing the assets that caused such failure, we will pay a tax equal to the greater of \$50,000 or 35% of the net income from the non-qualifying assets during the period in which we failed to satisfy such asset tests.
 - If we fail to satisfy one or more requirements for REIT qualification, other than the gross income tests and the asset tests, and such failure was due to reasonable cause and not due to willful neglect, we will be required to pay a penalty of \$50,000 for each such failure.
 - We may be required to pay monetary penalties to the IRS in certain circumstances, including if we fail to meet recordkeeping requirements intended to monitor our compliance with rules relating to the composition of a REIT’s stockholders, as described below in “—Requirements for Qualification.”
 - If we fail to distribute during a calendar year at least the sum of: (i) 85% of our REIT ordinary income for the year, (ii) 95% of our REIT capital gain net income for the year and (iii) any undistributed taxable income from earlier periods, we will pay a 4% nondeductible excise tax on the excess of the required distribution over the sum of the amount we actually distributed and any retained amounts on which income tax has been paid at the corporate level.
 - We may elect to retain and pay federal income tax on our net long-term capital gain. In that case, a Domestic Owner would be taxed on its proportionate share of our undistributed long-term capital gain (to the extent that we make a timely designation of such gain to the stockholder) and would receive a credit or refund for its proportionate share of the tax we paid.
-

- We will be subject to a 100% excise tax on transactions between us and any of our TRSs that are not conducted on an arm's-length basis.
- If (a) we recognize excess inclusion income for a taxable year as a result of our ownership of a 100% equity interest in a TMP or our ownership of a REMIC residual interest and (b) one or more Disqualified Organizations is the record owner of shares of our capital stock during that year, then we will be subject to tax at the highest corporate federal income tax rate on the portion of the excess inclusion income that is allocable to the Disqualified Organizations. We do not anticipate owning REMIC residual interests; we may, however, own 100% of the equity interests in one or more CDO offerings or one or more trusts formed in connection with our securitization transactions, but intend to structure each CDO offering and each securitization transaction so that the issuing entity would not be classified as a TMP. See “—Taxable Mortgage Pools.”
- If we acquire any asset from a C corporation, or a corporation that generally is subject to full corporate-level tax, in a merger or other transaction in which we acquire a basis in the asset that is determined by reference either to the C corporation's basis in the asset or to another asset, we will pay tax at the highest corporate federal income tax rate if we recognize gain on the sale or disposition of the asset during the 10-year period after we acquire the asset. The amount of gain on which we will pay tax is the lesser of:
 - the amount of gain that we recognize at the time of the sale or disposition, and
 - the amount of gain that we would have recognized if we had sold the asset at the time we acquired it, assuming that the C corporation will not elect in lieu of this treatment to an immediate tax when the asset is acquired.

In addition, notwithstanding our qualification as a REIT, we may also have to pay certain state and local income taxes because not all states and localities treat REITs in the same manner that they are treated for federal income tax purposes. Moreover, as further described below, any domestic TRS in which we own an interest will be subject to federal, state and local corporate income tax on its taxable income. We could also be subject to tax in situations and on transactions not presently contemplated.

Requirements for Qualification

A REIT is a corporation, trust, or association that meets each of the following requirements:

1. It is managed by one or more trustees or directors.
2. Its beneficial ownership is evidenced by transferable shares or by transferable certificates of beneficial interest.
3. It would be taxable as a domestic corporation, but for the REIT provisions of the federal income tax laws.

4. It is neither a financial institution nor an insurance company subject to special provisions of the federal income tax laws.

5. At least 100 persons are beneficial owners of its shares or ownership certificates.

6. Not more than 50% in value of its outstanding shares or ownership certificates is owned, directly or indirectly, by five or fewer individuals, which the federal income tax laws define to include certain entities, during the last half of any taxable year. For purposes of this requirement, indirect ownership will be determined by applying attribution rules set out in section 544 of the Code, as modified by section 856(h) of the Code.

7. It elects to be taxed as a REIT, or has made such election for a previous taxable year, and satisfies all relevant filing and other administrative requirements that must be met to elect and maintain REIT qualification.

8. It meets certain other qualification tests, described below, regarding the nature of its income and assets.

We must meet requirements 1 through 4 during our entire taxable year and must meet requirement 5 during at least 335 days of a taxable year of twelve months, or during a proportionate part of a taxable year of less than twelve months. Requirements 5 and 6 applied to us beginning with our 2008 taxable year. If we comply with all the requirements for ascertaining the ownership of our outstanding stock in a taxable year and have no reason to know that we violated requirement 6, we will be deemed to have satisfied requirement 6 for that taxable year. For purposes of determining share ownership under requirement 6, an “individual” generally includes a supplemental unemployment compensation benefits plan, a private foundation, or a portion of a trust permanently set aside or used exclusively for charitable purposes. An “individual” generally does not include a trust that is a qualified employee pension or profit sharing trust under the federal income tax laws, however, and beneficiaries of such a trust will be treated as owning our stock in proportion to their actuarial interests in the trust for purposes of requirement 6.

We believe that our shares are held with sufficient diversity of ownership to satisfy requirements 5 and 6. In addition, our charter restricts the ownership and transfer of our stock so that we should continue to satisfy these requirements. The provisions of our charter restricting the ownership and transfer of our capital stock are described in “Description of Capital Stock—Restrictions on Ownership and Transfer.”

To monitor compliance with the share ownership requirements, we generally are required to maintain records regarding the actual ownership of our shares. To do so, we must demand written statements each year from the record holders of significant percentages of our stock pursuant to which the record holders must disclose the actual owners of the shares (i.e., the persons required to include our dividends in their gross income). We must maintain a list of those persons failing or refusing to comply with this demand as part of our records. We could be subject to monetary penalties if we fail to comply with these record keeping requirements. If you fail or refuse to comply with the demands, you will be required by Treasury Regulations to submit a statement with your tax return disclosing your actual ownership of our shares and other

information. In addition, we must satisfy all relevant filing and other administrative requirements that must be met to elect and maintain REIT qualification and use a calendar year for federal income tax purposes. We intend to continue to comply with these requirements.

Qualified REIT Subsidiaries

A corporation that is a “qualified REIT subsidiary” is not treated as a corporation separate from its parent REIT. All assets, liabilities, and items of income, deduction and credit of a qualified REIT subsidiary are treated as assets, liabilities, and items of income, deduction and credit of the REIT. A qualified REIT subsidiary is a corporation, other than a TRS, all of the capital stock of which is owned, directly or indirectly, by the REIT. Thus, in applying the requirements described herein, any qualified REIT subsidiary that we own will be ignored, and all assets, liabilities, and items of income, deduction and credit of such subsidiary will be treated as our assets, liabilities, and items of income, deduction and credit. If we own 100% of the equity interests in a CDO issuer or other securitization vehicle that is treated as a corporation for tax purposes, that CDO issuer or other securitization vehicle would be a qualified REIT subsidiary, unless we and the CDO issuer or other securitization vehicle jointly elect to treat the CDO issuer or other securitization vehicle as a TRS. It is anticipated that CDO financings we enter into will be treated as qualified REIT subsidiaries.

Other Disregarded Entities and Partnerships

An unincorporated domestic entity, such as a partnership, limited liability company, or trust that has a single owner generally is not treated as an entity separate from its parent for federal income tax purposes. An unincorporated domestic entity with two or more owners generally is treated as a partnership for federal income tax purposes. In the case of a REIT that is a partner in a partnership that has other partners, the REIT is treated as owning its proportionate share of the assets of the partnership and as earning its allocable share of the gross income of the partnership for purposes of the applicable REIT qualification tests. For purposes of the 10% value test (see “—Asset Tests”), our proportionate share is based on our proportionate interest in the equity interests and certain debt securities issued by the partnership. For all of the other asset and income tests, our proportionate share is based on our proportionate interest in the capital interests in the partnership. Our proportionate share of the assets, liabilities, and items of income of any partnership, joint venture or limited liability company that is treated as a partnership for federal income tax purposes in which we acquire an interest, directly or indirectly, will be treated as our assets and gross income for purposes of applying the various REIT qualification requirements.

If a disregarded subsidiary of ours ceases to be wholly-owned—for example, if any equity interest in the subsidiary is acquired by a person other than us or another disregarded subsidiary of ours—the subsidiary’s separate existence would no longer be disregarded for federal income tax purposes. Instead, the subsidiary would have multiple owners and would be treated as either a partnership or a taxable corporation. Such an event could, depending on the circumstances, adversely affect our ability to satisfy the various asset and gross income requirements applicable to REITs, including the requirement that REITs generally may not own, directly or indirectly, more than 10% of the securities of another corporation. See “—Asset Tests” and “—Gross Income Tests.”

A REIT is permitted to own up to 100% of the stock of one or more TRSs. A TRS is a fully taxable corporation that may earn income that would not be qualifying income if earned directly by the parent REIT. The subsidiary and the REIT must jointly elect to treat the subsidiary as a TRS. A corporation with respect to which a TRS directly or indirectly owns more than 35% of the voting power or value of the stock will automatically be treated as a TRS. We generally may not own more than 10%, as measured by voting power or value, of the securities of a corporation that is not a qualified REIT subsidiary unless we and such corporation elect to treat such corporation as a TRS. Overall, no more than 25% of the value of a REIT's assets may consist of stock or securities of one or more TRSs.

The separate existence of a TRS or other taxable corporation, unlike a qualified REIT subsidiary or other disregarded subsidiary as discussed above, is not ignored for U.S. federal income tax purposes. Accordingly, a domestic TRS would generally be subject to federal (and applicable state and local income tax) corporate income tax on its earnings, which may reduce the cash flow generated by us and our subsidiaries in the aggregate and our ability to make distributions to our stockholders.

A REIT is not treated as holding the assets of a TRS or other taxable subsidiary corporation or as receiving any income that the subsidiary earns. Rather, the stock issued by the subsidiary is an asset in the hands of the REIT, and the REIT generally recognizes as income the dividends, if any, that it receives from the subsidiary. This treatment can affect the gross income and asset test calculations that apply to the REIT, as described below. Because a parent REIT does not include the assets and income of such subsidiary corporations in determining the parent's compliance with the REIT requirements, such entities may be used by the parent REIT to undertake indirectly activities that the REIT rules might otherwise preclude it from doing directly or through pass-through subsidiaries or render commercially unfeasible (for example, activities that give rise to certain categories of income such as non-qualifying hedging income or inventory sales).

Certain restrictions imposed on TRSs are intended to ensure that such entities will be subject to appropriate levels of U.S. federal income taxation. If a TRS that has for any taxable year both (i) a debt-to-equity ratio in excess of 1.5 to 1, and (ii) accrued interest expense in excess of accrued interest income, then the TRS may be denied an interest expense deduction for a portion of the interest expense accrued on indebtedness owed to the parent REIT (although the TRS can carry forward the amount disallowed to subsequent taxable years). In addition, if amounts are paid to a REIT or deducted by a TRS due to transactions between the REIT and a TRS that exceed the amount that would be paid to or deducted by a party in an arm's-length transaction, the REIT generally will be subject to an excise tax equal to 100% of such excess. We intend to scrutinize all of our transactions with any of our subsidiaries that are treated as a TRS in an effort to ensure that we do not become subject to this excise tax; however, we cannot assure you that we will be successful in avoiding this excise tax.

Gross Income Tests

We must satisfy two gross income tests annually to maintain qualification as a REIT. First, at least 75% of our gross income for each taxable year must consist of defined types of income that we derive from investments relating to real property or mortgages on real property, or from qualified temporary investments. Qualifying income for purposes of the 75% gross income test generally includes:

- rents from real property;
- interest on debt secured by a mortgage on real property or on interests in real property;
- dividends or other distributions on, and gain from the sale of, shares in other REITs;
- gain from the sale of real estate assets;
- any amount includible in gross income with respect to a regular or residual interest in a REMIC, unless less than 95% of the REMIC's assets are real estate assets, in which case only a proportionate amount of such income will qualify; and
- income derived from certain temporary investments.

Second, in general, at least 95% of our gross income for each taxable year must consist of income that is qualifying income for purposes of the 75% gross income test, other types of interest and dividends, gain from the sale or disposition of stock or securities (provided that such stock or securities are not inventory property, i.e., property held primarily for sale to customers in the ordinary course of business) or any combination of these.

Gross income from the sale of inventory property is excluded from both the numerator and the denominator in both income tests. Income and gain from hedging transactions that we enter into to hedge indebtedness incurred or to be incurred to acquire or carry real estate assets will generally be excluded from both the numerator and the denominator for purposes of the 95% gross income test and the 75% gross income test. We intend to monitor the amount of our non-qualifying income and manage our investment portfolio to comply at all times with the gross income tests but we cannot assure you that we will be successful in this effort.

Interest

The term "interest," as defined for purposes of both gross income tests, generally excludes any amount that is based in whole or in part on the income or profits of any person. However, interest generally includes the following: (i) an amount that is based on a fixed percentage or percentages of gross receipts or sales and (ii) an amount that is based on the income or profits of a borrower, where the borrower derives substantially all of its income from the real property securing the debt by leasing substantially all of its interest in the property, but only to the extent that the amounts received by the borrower would be qualifying "rents from real property" if received directly by a REIT.

If a loan contains a provision that entitles a REIT to a percentage of the borrower's gain upon the sale of the real property securing the loan or a percentage of the appreciation in the

property's value as of a specific date, income attributable to that loan provision will be treated as gain from the sale of the property securing the loan, which generally is qualifying income for purposes of both gross income tests.

Interest, including original issue discount or market discount, that we accrue on our real estate-related investments generally will be qualifying income for purposes of both gross income tests. However, many of our investments will not be secured by mortgages on real property or interests in real property. Our interest income from those investments will be qualifying income for purposes of the 95% gross income test but not the 75% gross income test. In addition, as discussed below, if the fair market value of the real estate securing any of our investments is less than the principal amount of the underlying loan, a portion of the income from that investment will be qualifying income for purposes of the 95% gross income test but not the 75% gross income test.

Where a mortgage covers both real property and other property, an apportionment of interest income must be made for purposes of the 75% gross income test. If a mortgage covers both real property and other property and the fair market value of the real property securing the mortgage loan at the time we commit to originate or acquire the mortgage loan equals or exceeds the highest principal amount of the loan during the year, then all of the interest we accrue on the mortgage loan will qualify for purposes of the 75% gross income test. If, however, the value of the real property were less than the highest principal amount, then only a portion of the interest income we accrue on the mortgage loan would qualify for purposes of the 75% gross income test; such portion based on the percentage equivalent of a fraction, the numerator of which is the fair market value of the real property and the denominator of which is the principal amount of the mortgage loan.

Fee Income

We may receive various fees in connection with our operations. The fees will be qualifying income for purposes of both the 75% gross income and 95% gross income tests if they are received in consideration for entering into an agreement to make a loan secured by a mortgage on real property or an interest in real property and the fees are not determined by income or profits of any person. Other fees are not qualifying income for purposes of either gross income test. Any fees earned by our TRS will not be included for purposes of the gross income tests.

Dividends

Our share of any dividends received from any corporation (including any TRS that we own, but excluding any REIT or any qualified REIT subsidiary) in which we own an equity interest will qualify for purposes of the 95% gross income test but not for purposes of the 75% gross income test. Our share of any dividends received from any other REIT in which we own an equity interest will be qualifying income for purposes of both gross income tests.

Rents from Real Property

We currently do not intend to acquire real property with the proceeds of offerings of these securities.

Hedging Transactions

We may, from time to time, enter into hedging transactions with respect to the interest rate risk associated with our borrowings. To the extent that we enter into a contract to hedge interest rate risk on indebtedness incurred to acquire or carry real estate assets, any income and gain from such hedging transaction will be excluded from gross income for purposes of the 95% gross income test and the 75% gross income test. To the extent that we hedge for certain other purposes, the resultant income or gain will be treated as income that does not qualify under the 95% gross income test or the 75% gross income test. We intend to structure any hedging transaction in a manner that does not jeopardize our status as a REIT but we cannot assure you that we will be successful in this regard. We may conduct some or all of our hedging activities through a TRS, the income from which may be subject to federal income tax, rather than participating in the arrangements directly or through a partnership, qualified REIT subsidiary or other disregarded subsidiary. No assurance can be given, however, that our hedging activities will not give rise to income that does not qualify for purposes of either or both of the REIT gross income tests, and will not adversely affect our ability to satisfy the REIT qualification requirements.

Failure to Satisfy Gross Income Tests

We intend to monitor the amount of our non-qualifying income and manage our assets to comply with the gross income tests for each taxable year for which we seek to maintain our status as a REIT. We cannot assure you, however, that we will be able to satisfy the gross income tests. If we fail to satisfy one or both of the gross income tests for any taxable year, we may nevertheless qualify as a REIT for such year if we qualify for relief under certain provisions of the Code. These relief provisions will be generally available if (i) our failure to meet such tests was due to reasonable cause and not due to willful neglect, and (ii) we file with the IRS a schedule describing the sources of our gross income in accordance with Treasury Regulations. We cannot predict, however, whether in all circumstances, we would qualify for the benefit of these relief provisions. In addition, as discussed above under “—Taxation of Our Company,” even if the relief provisions apply, a tax would be imposed upon the amount by which we fail to satisfy the particular gross income test.

Asset Tests

To qualify as a REIT, we also must satisfy the following asset tests at the end of each quarter of each taxable year. First, at least 75% of the value of our total assets must consist of some combination of “real estate assets,” cash, cash items, government securities, and, under some circumstances, stock or debt instruments purchased with new capital. For this purpose, the term “real estate assets” includes interests in real property (including leaseholds and options to acquire real property and leaseholds), stock of other corporations that qualify as REITs and interests in mortgage loans secured by real property (including certain types of mortgage-backed securities). Assets that do not qualify for purposes of the 75% test are subject to the additional asset tests described below.

Second, the value of our interest in any one issuer’s securities (other than debt and equity securities issued by any of our TRSs, qualified REIT subsidiaries, any other entity that is

disregarded as an entity separate from us, and any equity interest we may hold in a partnership) may not exceed 5% of the value of our total assets. Third, we may not own more than 10% of the voting power or 10% of the value of any one issuer's outstanding securities (other than debt and equity securities issued by any of our TRSs, qualified REIT subsidiaries, any other entity that is disregarded as an entity separate from us, and any equity interest we may hold in a partnership). Fourth, no more than 25% of the value of our total assets may consist of the securities of one or more TRSs. For purposes of the 10% value test, the term "securities" does not include certain "straight debt" securities.

Notwithstanding the general rule that, for purposes of the gross income and asset tests, a REIT is treated as owning its proportionate share of the underlying assets of a partnership in which it holds a partnership interest, if a REIT holds indebtedness issued by a partnership, the indebtedness will be subject to, and may cause a violation of the asset tests, unless it is a qualifying mortgage asset or otherwise satisfies the rules for "straight debt." Similarly, although stock of another REIT qualifies as a real estate asset for purposes of the REIT asset tests, non-mortgage debt issued by another REIT may not so qualify.

Any regular or residual interest that we own in a REMIC will generally qualify as real estate assets. However, if less than 95% of the assets of a REMIC consist of assets that qualify as real estate assets, then we will be treated as holding directly our proportionate share of the assets of such REMIC for purposes of the asset tests.

We believe that most of the assets that we hold and those we expect to hold will be qualifying assets for purposes of the 75% asset test. However, our investment in other asset-backed securities, bank loans and other instruments that are not secured by mortgages on real property will not be qualifying assets for purposes of the 75% asset test.

We have monitored and will continue to monitor the status of our assets for purposes of the various asset tests and will seek to manage our portfolio to comply at all times with such tests. There can be no assurance, however, that we will be successful in this effort. In this regard, to determine our compliance with these requirements, we will need to estimate the value of our assets to ensure compliance with the asset tests. We will not obtain independent appraisals to support our conclusions concerning the values of our assets, and we will generally rely on representations and warranties of sellers from whom we acquire mortgage loans concerning the loan-to-value ratios for such mortgage loans. Moreover, some of the assets that we may own may not be susceptible to precise valuation. Although we will seek to be prudent in making these estimates, there can be no assurance that the IRS will not disagree with these determinations and assert that a different value is applicable, in which case we might not satisfy the 75% asset test and the other asset tests and would fail to qualify as a REIT.

Failure to Satisfy Asset Tests

If we fail to satisfy the asset tests as the end of a quarter, we will not lose our REIT qualification if:

- we satisfied the asset tests at the end of the preceding calendar quarter; and

- the discrepancy between the value of our assets and the asset test requirements arose from changes in the market values of our assets and was not wholly or partly caused by the acquisition of one or more non-qualifying assets.

If we did not satisfy the condition described in the second bullet above, we still could avoid disqualification by eliminating any discrepancy within 30 days after the close of the calendar quarter in which it arose.

If we violate the 5% value test, 10% voting test or 10% value test described above at the end of any calendar quarter, we will not lose our REIT qualification if (i) the failure is de minimis (up to the lesser of 1% of our total assets or \$10 million) and (ii) we dispose of these assets or otherwise comply with the asset tests within six months after the last day of the quarter. In the event of a more than de minimis failure of any of the asset tests, as long as the failure was due to reasonable cause and not to willful neglect, we will not lose our REIT qualification if we (i) file with the IRS a schedule describing the assets that caused the failure, (ii) dispose of these assets or otherwise comply with the asset tests within six months after the last day of the quarter and (iii) pay a tax equal to the greater of \$50,000 per failure or an amount equal to the product of the highest corporate income tax rate (currently 35%) and the net income from the non-qualifying assets during the period in which we failed to satisfy the asset tests.

Annual Distribution Requirements

To qualify as a REIT, we are required to distribute dividends (other than capital gain dividends) to our stockholders in an amount at least equal to:

(A) the sum of

- (i) 90% of our "REIT taxable income" (computed without regard to the dividends paid deduction and our net capital gains), and
- (ii) 90% of the net income (after tax), if any, from foreclosure property (as described below), minus

(B) the sum of certain items of non-cash income.

In addition, if we were to recognize "built-in-gain" (as defined below) on disposition of any assets acquired from a "C" corporation in a transaction in which our basis in the assets was determined by reference to the "C" corporation's basis (for instance, if the assets were acquired in a tax-free reorganization), we would be required to distribute at least 90% of the built-in-gain recognized net of the tax we would pay on such gain. "Built-in-gain" is the excess of (a) the fair market value of an asset (measured at the time of acquisition) over (b) the basis of the asset (measured at the time of acquisition).

Such distributions must be paid in the taxable year to which they relate, or in the following taxable year if either (i) we declare the distribution before we file a timely federal income tax return for the year and pay the distribution with or before the first regular dividend payment after such declaration or (ii) we declare the distribution in October, November or December of the taxable year, payable to stockholders of record on a specified day in any such

month, and we actually pay the dividends before the end of January of the following year. The distributions under clause (i) are taxable to the Owners of our capital stock in the year in which paid, and the distributions in clause (ii) are treated as paid on December 31 of the prior taxable year. In both instances, these distributions relate to our prior taxable year for purposes of the 90% distribution requirement.

We will pay federal income tax at corporate tax rates on our taxable income, including net capital gain, that we do not distribute to stockholders. Furthermore, if we fail to distribute during each calendar year, or by the end of January following the calendar year in the case of distributions with declaration and record dates falling in the last three months of the calendar year, at least the sum of (i) 85% of our REIT ordinary income for such year, (ii) 95% of our REIT capital gain income for such year and (iii) any undistributed taxable income from prior periods, we will be subject to a 4% nondeductible excise tax on the excess of such required distribution over the amounts actually distributed. We generally intend to make timely distributions sufficient to satisfy the annual distribution requirements and to avoid corporate federal income tax and the 4% nondeductible excise tax.

We may elect to retain, rather than distribute, our net capital gain and pay tax on such gains. In this case, we could elect to have our stockholders include their proportionate share of such undistributed capital gains in income and to receive a corresponding credit or refund, as the case may be, for their share of the tax paid by us. Stockholders would then increase the adjusted basis of their stock by the difference between the designated amounts of capital gains from us that they include in their taxable income, and the tax paid on their behalf by us with respect to that income.

To the extent that a REIT has available net operating losses carried forward from prior tax years, such losses may reduce the amount of distributions that it must make to comply with the REIT distribution requirements. Such losses, however, will generally not affect the character, in the hands of stockholders, of any distributions that are actually made by the REIT, which are generally taxable to stockholders to the extent that the REIT has current or accumulated earnings and profits. See “—Taxation of Stockholders, —Taxation of Taxable Domestic Stockholders.”

We may find it difficult or impossible to meet distribution requirements in certain circumstances. Due to the nature of the assets in which we will invest, we may be required to recognize taxable income from those assets in advance of our receipt of cash flow on or proceeds from disposition of such assets. For instance, we may be required to accrue interest and discount income on mortgage loans, mortgage-backed securities, and other types of debt securities or interests in debt securities before we receive any payments of interest or principal on such assets. Moreover, in certain instances we may be required to accrue taxable income that we may not actually recognize as economic income. For example, if we own a residual equity position in a mortgage loan securitization, we may recognize taxable income that we will never actually receive due to losses sustained on the underlying mortgage loans. Although those losses would be deductible for tax purposes, they would likely occur in a year subsequent to the year in which we recognized the taxable income. Thus, for any taxable year, we may be required to fund distributions in excess of cash flow received from our investments. If such circumstances arise, then to fund our distribution requirement and maintain our status as a REIT we may have to sell

assets at unfavorable prices, borrow at unfavorable terms, make taxable stock dividends, or pursue other strategies. We cannot be assured, however, any such strategy would be successful if our cash flow were to become insufficient to make the required distributions.

Under certain circumstances, we may be able to rectify a failure to meet the distribution requirement for a year by paying "deficiency dividends" to stockholders in a later year, which may be included in our deduction for dividends paid for the earlier year. Thus, we may be able to avoid being taxed on amounts distributed as deficiency dividends; however, we will be required to pay interest and a penalty to the IRS based on the amount of any deduction taken for deficiency dividends.

Failure to Qualify

If we fail to satisfy one or more requirements for REIT qualification, other than the gross income tests and the asset tests, we could avoid disqualification if our failure is due to reasonable cause and not to willful neglect and we pay a penalty of \$50,000 for each such failure. In addition, there are relief provisions for a failure of the gross income tests and asset tests, as described in "—Gross Income Tests" and "—Asset Tests."

If we fail to qualify for taxation as a REIT in any taxable year, and the relief provisions do not apply, we will be subject to tax (including any applicable alternative minimum tax) on our taxable income at regular federal corporate income tax rates. Distributions to stockholders in any year in which we fail to qualify will not be deductible by us nor will they be required to be made. In such event, to the extent of current and accumulated earnings and profits, all distributions to stockholders will be taxable as ordinary income, and, subject to certain limitations of the Code, corporate stockholders may be eligible for the dividends received deduction, and individual stockholders and other non-corporate stockholders may be eligible to be taxed at the reduced 15% rate currently applicable to qualified dividend income (through 2010). Unless entitled to relief under specific statutory provisions, we will also be disqualified from taxation as a REIT for the four taxable years following the year during which qualification was lost. We cannot predict whether in all circumstances we would be entitled to such statutory relief.

Prohibited Transactions

Net income derived by a REIT from a prohibited transaction is subject to a 100% excise tax. The term "prohibited transaction" generally includes a sale or other disposition of property (other than foreclosure property) that is held "primarily for sale to customers in the ordinary course of a trade or business." Although we do not expect that our assets will be held primarily for sale to customers or that a sale of any of our assets will be in the ordinary course of our business, these terms are dependent upon the particular facts and circumstances, and we cannot assure you that we will never be subject to this excise tax. The 100% tax does not apply to gains from the sale of property that is held through a TRS or other taxable corporation, although such income will be subject to tax in the hands of the corporation at regular federal corporate income tax rates.

Foreclosure Property

A REIT is subject to tax at the maximum corporate rate (currently 35%) on any income from foreclosure property, including gain from the disposition of such foreclosure property, other than income that otherwise would be qualifying income for purposes of the 75% gross income test. Foreclosure property is real property and any personal property incident to such real property (i) that is acquired by a REIT as result of the REIT having bid on such property at foreclosure, or having otherwise reduced the property to ownership or possession by agreement or process of law, after there was a default (or default was imminent) on a lease of such property or a mortgage loan held by the REIT and secured by the property, (ii) for which the related loan or lease was acquired by the REIT at a time when default was not imminent or anticipated and (iii) for which such REIT makes a proper election to treat the property as foreclosure property. Any gain from the sale of property for which a foreclosure election has been made will not be subject to the 100% excise tax on gains from prohibited transactions described above, even if the property would otherwise constitute inventory or dealer property in the hands of the selling REIT. We do not expect to receive income from foreclosure property that is not qualifying income for purposes of the 75% gross income test. However, if we do receive any such income, we intend to make an election to treat the related property as foreclosure property.

Taxable Mortgage Pools

An entity, or a portion of an entity, may be classified as a TMP under the Code if (i) substantially all of its assets consist of debt obligations or interests in debt obligations, (ii) more than 50% of those debt obligations are real estate mortgage loans, interests in real estate mortgage loans or interests in certain mortgage-backed securities as of specified testing dates, (iii) the entity has issued debt obligations that have two or more maturities and (iv) the payments required to be made by the entity on its debt obligations "bear a relationship" to the payments to be received by the entity on the debt obligations that it holds as assets. Under Treasury Regulations, if less than 80% of the assets of an entity (or a portion of an entity) consist of debt obligations, these debt obligations are considered not to comprise "substantially all" of its assets, and therefore the entity would not be treated as a TMP.

We do not intend to structure or enter into securitization or financing transactions that will cause us to be viewed as owning interests in one or more TMPs. Generally, if an entity or a portion of an entity is classified as a TMP, then the entity or portion thereof is treated as a taxable corporation and it cannot file a consolidated federal income tax return with any other corporation. If, however, a REIT owns 100% of the equity interests in a TMP, then the TMP is a qualified REIT subsidiary and, as such, ignored as an entity separate from the REIT.

If, notwithstanding our intent to avoid having the issuing entity in any of our securitization or financing transactions classified as a TMP, one or more of such transactions was so classified, then as long as we owned 100% of the equity interests in the issuing entity, all or a portion of the income that we recognize with respect to our investment in the issuing entity will be treated as excess inclusion income. Section 860E(c) of the Code defines the term "excess inclusion" with respect to a residual interest in a REMIC. The IRS, however, has yet to issue guidance on the computation of excess inclusion income on equity interests in a TMP held by a REIT. Generally, however, excess inclusion income with respect to our investment in any TMP

and any taxable year will equal the excess of (i) the amount of income we accrue on our investment in the TMP over (ii) the amount of income we would have accrued if our investment were a debt instrument having an issue price equal to the fair market value of our investment on the day we acquired it and a yield to maturity equal to 120% of the long-term applicable federal rate in effect on the date we acquired our interest. The term “applicable federal rate” refers to rates that are based on weighted average yields for treasury securities and are published monthly by the IRS for use in various tax calculations. If we undertake securitization transactions that are TMPs, the amount of excess inclusion income we recognize in any taxable year could represent a significant portion of our total taxable for that year.

Although we intend to structure our securitization and financing transactions so that we will not recognize any excess inclusion income, we cannot assure you that we will always be successful in this regard. If, notwithstanding our intent, we recognized excess inclusion income, then under guidance issued by the IRS we would be required to allocate the excess inclusion income proportionately among the dividends we pay to our stockholders and we must notify our stockholders of the portion of our dividends that represents excess inclusion income. The portion of any dividend you receive that is treated as excess inclusion income is subject to special rules. First, your taxable income can never be less than the sum of your excess inclusion income for the year; excess inclusion income cannot be offset with net operating losses or other allowable deductions. Second, if you are a tax-exempt organization and your excess inclusion income is subject to the unrelated business income tax, then the excess inclusion portion of any dividend you receive will be treated as unrelated business taxable income. Third, dividends paid to Foreign Owners who hold stock for investment and not in connection with a trade or business conducted in the United States will be subject to United States federal withholding tax without regard to any reduction in rate otherwise allowed by any applicable income tax treaty.

If we recognize excess inclusion income, and one or more Disqualified Organizations are record holders of shares of capital stock, we will be taxable at the highest federal corporate income tax rate on the portion of any excess inclusion income equal to the percentage of our stock that is held by Disqualified Organizations. In such circumstances, we may reduce the amount of our distributions to a Disqualified Organization whose stock ownership gave rise to the tax. To the extent that our capital stock owned by Disqualified Organizations is held by a broker/dealer or other nominee, the broker/dealer or other nominee would be liable for a tax at the highest corporate tax rate on the portion of our excess inclusion income allocable to our capital stock held by the broker/dealer or other nominee on behalf of the Disqualified Organizations.

If we own less than 100% of the equity interests in a TMP, the foregoing rules would not apply. Rather, the entity would be treated as a corporation for federal income tax purposes and would potentially be subject to federal corporate income tax. This could adversely affect our compliance with the REIT gross income and asset tests described above. We currently do not have, and currently do not intend to enter into any securitization or financing transaction that is a TMP in which we own some, but less than all, of the equity interests, and we intend to monitor the structure of any TMPs in which we have an interest to ensure that they will not adversely affect our status as a REIT. We cannot assure you that we will be successful in this regard.

Taxation of Owners

Taxation of Taxable Domestic Owners

Distributions. As long as we qualify as a REIT, distributions we make to our taxable Domestic Owners out of current or accumulated earnings and profits (and not designated as capital gain dividends) will be taken into account by them as ordinary income. Dividends we pay to a corporation will not be eligible for the dividends received deduction. In addition, distributions we make to individuals and other Owners that are not corporations generally will not be eligible for the 15% reduced rate of tax currently (through 2010) in effect for “qualified dividend income.” However, provided certain holding period and other requirements are met, an individual or other non-corporate Owner will be eligible for the 15% reduced rate with respect to (i) distributions attributable to dividends we receive from certain “C” corporations, such as our TRSs, and (ii) distributions attributable to income upon which we have paid corporate income tax.

Distributions that we designate as capital gain dividends will be taxed as long-term capital gains (to the extent that they do not exceed our actual net capital gain for the taxable year) without regard to the period for which you have owned our capital stock. However, corporate Owners may be required to treat up to 20% of certain capital gain dividends as ordinary income. Long-term capital gains are generally taxable at maximum federal rates of 15% (through 2010) in the case of individuals, trusts and estates, and 35% in the case of corporations.

Rather than distribute our net capital gains, we may elect to retain and pay the federal income tax on them, in which case you will (i) include your proportionate share of the undistributed net capital gains in income, (ii) receive a credit for your share of the federal income tax we pay and (iii) increase the basis in your capital stock by the difference between your share of the capital gain and your share of the credit.

Distributions in excess of our current and accumulated earnings and profits will not be taxable to you to the extent that they do not exceed your adjusted tax basis in our capital stock you own, but rather, will reduce your adjusted tax basis in your capital stock. Assuming that the capital stock you own is a capital asset, to the extent that such distributions exceed your adjusted tax basis in the capital stock you own, you must include them in income as long-term capital gain (or short-term capital gain if the capital stock has been held for one year or less).

If we declare a dividend in October, November or December of any year that is payable to stockholders of record on a specified date in any such month, but actually distribute the amount declared in January of the following year, then you must treat the January distribution as though you received it on December 31 of the year in which we declared the dividend. In addition, we may elect to treat other distributions after the close of the taxable year as having been paid during the taxable year, but you will be treated as having received these distributions in the taxable year in which they are actually made.

To the extent that we have available net operating losses and capital losses carried forward from prior tax years, such losses may reduce the amount of distributions that we must make to comply with the REIT distribution requirements. See “—Annual Distribution

Requirements.” Such losses, however, are not passed through to you and do not offset your income from other sources, nor would they affect the character of any distributions that you receive from us; you will be subject to tax on those distributions to the extent that we have current or accumulated earnings and profits.

Although we do not expect to recognize any excess inclusion income, if we did recognize excess inclusion income, we would identify a portion of the distributions that we make to you as excess inclusion income. Your taxable income can never be less than the sum of your excess inclusion income for the year; excess inclusion income cannot be offset with net operating losses or other allowable deductions. See “—Taxable Mortgage Pools.”

Dispositions of Our Stock. Any gain or loss you recognize upon the sale or other disposition of our capital stock will generally be capital gain or loss for federal income tax purposes, and will be long-term capital gain or loss if you held the capital stock for more than one year. In addition, any loss you recognize upon a sale or exchange of our capital stock that you have owned for six months or less (after applying certain holding period rules) will generally be treated as a long-term capital loss to the extent of distributions received from us that you are required to treat as long-term capital gain.

If you recognize a loss upon a disposition of our capital stock in an amount that exceeds a prescribed threshold, it is possible that the provisions of recently adopted Treasury Regulations involving “reportable transactions” could apply, with a resulting requirement to separately disclose the loss-generating transaction to the IRS. While these regulations are directed towards “tax shelters,” they are written quite broadly, and apply to transactions that would not typically be considered tax shelters. In addition, recently enacted legislation imposes significant penalties for failure to comply with these requirements. You should consult your tax advisor concerning any possible disclosure obligation with respect to the receipt or disposition of our capital stock, or transactions that might be undertaken directly or indirectly by us. Moreover, you should be aware that we and other participants in the transactions involving us (including our advisors) may be subject to disclosure or other requirements pursuant to these regulations.

Amounts that you are required to include in taxable income with respect to our capital stock you own, including taxable distributions and the income you recognize with respect to undistributed net capital gain, and any gain recognized upon your disposition of our capital stock, will not be treated as passive activity income. You may not offset any passive activity losses you may have, such as losses from limited partnerships in which you have invested, with income you recognize with respect to our shares of capital stock. Generally, income you recognize with respect to our capital stock will be treated as investment income for purposes of the investment interest limitations.

Information Reporting and Backup Withholding. We will report to our stockholders and to the IRS the amount of distributions we pay during each calendar year and the amount of tax we withhold, if any. Under the backup withholding rules, you may be subject to backup withholding at a current rate of 28% with respect to distributions unless you:

- are a corporation or come within certain other exempt categories and, when required, demonstrate this fact; or

- provide a taxpayer identification number, certify as to no loss of exemption from backup withholding, and otherwise comply with the applicable requirements of the backup withholding rules.

Any amount paid as backup withholding will be creditable against your federal income tax liability. For a discussion of the backup withholding rules as applied to foreign owners, see “—Taxation of Foreign Owners.”

Taxation of Tax-Exempt Owners

Tax-exempt entities, including qualified employee pension and profit sharing trusts and individual retirement accounts, are generally exempt from federal income taxation. However, they are subject to taxation on their unrelated business taxable income (“UBTI”). Provided that a tax-exempt Owner (i) has not held our capital stock as “debt financed property” within the meaning of the Code and (ii) has not used our capital stock in an unrelated trade or business, amounts that we distribute to tax-exempt Owners generally should not constitute UBTI. However, a tax-exempt Owner’s allocable share of any excess inclusion income that we recognize will be subject to tax as UBTI. See “—Taxable Mortgage Pools.” We intend to structure our securitization and financing transactions so that we will avoid recognizing any excess inclusion income.

Tax-exempt Owners that are social clubs, voluntary employee benefit associations, supplemental unemployment benefit trusts and qualified group legal services plans, exempt from taxation under special provisions of the federal income tax laws, are subject to different UBTI rules, which generally will require them to characterize distributions that they receive from us as UBTI.

In certain circumstances, a qualified employee pension trust or profit sharing trust that owns more than 10% of our stock could be required to treat a percentage of the dividends that it receives from us as UBTI if we are a “pension-held REIT.” We will not be a pension-held REIT unless either (a) one pension trust owns more than 25% of the value of our stock or (b) a group of pension trusts individually holding more than 10% of our stock collectively owns more than 50% of the value of our stock. However, the restrictions on ownership and transfer of our stock, as described under “Description of Capital Stock—Restrictions on Ownership and Transfer” are designed among other things to prevent a tax-exempt entity from owning more than 10% of the value of our stock, thus making it unlikely that we will become a pension-held REIT.

Taxation of Foreign Owners

The following is a summary of certain U.S. federal income and estate tax consequences of the ownership and disposition of our capital stock applicable to a Foreign Owner.

If a partnership, including for this purpose any entity that is treated as a partnership for U.S. federal income tax purposes, holds our capital stock, the tax treatment of a partner in the partnership will generally depend upon the status of the partner and the activities of the partnership. An investor that is a partnership having Foreign Owners as partners should consult its tax advisors about the U.S. federal income tax consequences of the acquisition, ownership and disposition of our capital stock.

The discussion is based on current law and is for general information only. The discussion addresses only certain and not all aspects of U.S. federal income and estate taxation.

Ordinary Dividend Distributions. The portion of dividends received by a Foreign Owner payable out of our current and accumulated earnings and profits that are not attributable to our capital gains and that are not effectively connected with a U.S. trade or business of the Foreign Owner will be subject to U.S. withholding tax at the rate of 30% (unless reduced by an applicable income tax treaty). In general, a Foreign Owner will not be considered engaged in a U.S. trade or business solely as a result of its ownership of our capital stock. In cases where the dividend income from a Foreign Owner's investment in our capital stock is (or is treated as) effectively connected with the Foreign Owner's conduct of a U.S. trade or business, the Foreign Owner generally will be subject to U.S. tax at graduated rates, in the same manner as Domestic Owners are taxed with respect to such dividends (and may also be subject to the 30% branch profits tax in the case of a foreign owner that is a foreign corporation). If a Foreign Owner is the record holder of shares of our capital stock, we plan to withhold U.S. income tax at the rate of 30% on the gross amount of any distribution paid to a Foreign Owner unless:

- a lower income treaty rate applies and the Foreign Owner provides us with an IRS Form W-8BEN evidencing eligibility for that reduced rate; or
- the Foreign Owner provides us with an IRS Form W-8ECI certifying that the distribution is effectively connected income.

Under some income tax treaties, lower withholding tax rates do not apply to ordinary dividends from REITs. Furthermore, reduced treaty rates are not available to the extent that distributions are treated as excess inclusion income. See “—Taxable Mortgage Pools.” We intend to structure our securitization and financing transactions so that we will avoid recognizing any excess inclusion income.

Non-Dividend Distributions. Distributions we make to a Foreign Owner that are not considered to be distributions out of our current and accumulated earnings and profits will not be subject to U.S. federal income or withholding tax unless the distribution exceeds the Foreign Owner's adjusted tax basis in our capital stock at the time of the distribution and, as described below, the Foreign Owner would otherwise be taxable on any gain from a disposition of our capital stock. If it cannot be determined at the time a distribution is made whether or not such distribution will be in excess of our current and accumulated earnings and profits, the entire distribution will be subject to withholding at the rate applicable to dividends. A Foreign Owner may, however, seek a refund of such amounts from the IRS if it is subsequently determined that the distribution was, in fact, in excess of our current and accumulated earnings and profits, provided the proper forms are timely filed with the IRS by the Foreign Owner.

Capital Gain Dividends. Distributions that we make to Foreign Owners that are attributable to our disposition of U.S. real property interests (“USRPI,” which term does not include interests in mortgage loans and mortgage-backed securities) are subject to U.S. federal income and withholding taxes pursuant to the Foreign Investment in Real Property Act of 1980, or FIRPTA, and may also be subject to branch profits tax if the Foreign Owner is a corporation that is not entitled to treaty relief or exemption. Although we do not anticipate recognizing any gain attributable to the disposition of USRPI, as defined by FIRPTA, Treasury Regulations

interpreting the FIRPTA provisions of the Code could be read to impose a withholding tax at a rate of 35% on all of our capital gain dividends (or amounts we could have designated as capital gain dividends) paid to Foreign Owners, even if no portion of the capital gains we recognize during the year are attributable to our disposition of USRPI. However, in any event, the FIRPTA rules will not apply to distributions to a Foreign Owner with respect to any class of our capital stock so long as (i) such class of stock is regularly traded (as defined by applicable Treasury Regulations) on an established securities market, and (ii) the Foreign Owner owns (actually or constructively) no more than 5% of such class of stock at any time during the one-year period ending with the date of the distribution.

Dispositions of Our Stock. Unless our capital stock constitutes a USRPI, a sale of our capital stock by a Foreign Owner generally will not be subject to U.S. federal income tax under FIRPTA. We do not expect that our capital stock will constitute a USRPI. Our capital stock will not constitute a USRPI if less than 50% of our assets throughout a prescribed testing period consist of interests in real property located within the United States, excluding, for this purpose, interest in real property solely in the capacity as a creditor. Even if the foregoing test is not met, our capital stock will not constitute a USRPI if we are a domestically controlled REIT. A “domestically controlled REIT” is a REIT in which, at all times during a specified testing period, less than 50% in value of its shares is held directly or indirectly by foreign owners. We do not intend to maintain records to determine whether we are a domestically controlled REIT for this purpose.

Even if we do not constitute a domestically controlled REIT, a Foreign Owner’s sale of a class of our capital stock generally will still not be subject to tax under FIRPTA as a sale of a USRPI provided that (i) such class of stock is “regularly traded” (as defined by applicable Treasury Regulations) on an established securities market and (ii) the selling Foreign Owner has owned (actually or constructively) 5% or less of such class of stock at all times during a specified testing period.

If gain on the sale of our capital stock were subject to taxation under FIRPTA, the Foreign Owner would generally be subject to the same treatment as a Domestic Owner with respect to such gain (subject to applicable alternative minimum tax and a special alternative minimum tax in the case of nonresident alien individuals) and the purchaser of the capital stock could be required to withhold 10% of the purchase price and remit such amount to the IRS.

Capital gains not subject to FIRPTA will nonetheless be taxable in the United States to a Foreign Owner in two cases. First, if the Foreign Owner’s investment in our capital stock is effectively connected with a U.S. trade or business conducted by such Foreign Owner, the Foreign Owner will generally be subject to the same treatment as a Domestic Owner with respect to such gain. Second, if the Foreign Owner is a nonresident alien individual who was present in the United States for 183 days or more during the taxable year and has a “tax home” in the United States, the nonresident alien individual will be subject to a 30% tax on the individual’s capital gain.

Estate Tax. Our capital stock owned or treated as owned by an individual who is not a citizen or resident of the United States (as specially defined for U.S. federal estate tax purposes) at the time of death will be includible in the individual’s gross estate for U.S. federal estate tax

purposes, unless an applicable estate tax treaty provides otherwise. Such individual's estate may be subject to U.S. federal estate tax on the property includible in the estate for U.S. federal estate tax purposes.

Other Tax Consequences

Possible Legislative or Other Actions Affecting Tax Consequences. Prospective investors should recognize that the present federal income tax treatment of an investment in our capital stock may be modified by legislative, judicial or administrative action at any time, and that any such action may affect investments and commitments previously made. The rules dealing with federal income taxation are constantly under review by persons involved in the legislative process and by the IRS and Treasury Department, resulting in revisions of regulations and revised interpretations of established concepts as well as statutory changes. Revisions in federal tax laws and interpretations thereof could adversely affect the tax consequences of an investment in our capital stock.

State and Local Taxes. We and our stockholders may be subject to state or local taxation in various state or local jurisdictions, including those in which we or they transact business or reside. The state and local tax treatment may not conform to the federal income tax consequences discussed above. Consequently, prospective investors should consult their own tax advisors regarding the effect of state and local tax laws on an investment in our capital stock.

PLAN OF DISTRIBUTION

We may sell the securities offered pursuant to this prospectus and any accompanying prospectus supplements to or through one or more underwriters or dealers or we may sell the securities to investors directly or through agents. Each prospectus supplement, to the extent applicable, will describe the number and terms of the securities to which such prospectus supplement relates, the name or names of any underwriters or agents with whom we have entered into arrangements with respect to the sale of such securities, the public offering or purchase price of such securities and the net proceeds we will receive from such sale. Any underwriter or agent involved in the offer and sale of the securities will be named in the applicable prospectus supplement. We may sell securities directly to investors on our own behalf in those jurisdictions where we are authorized to do so.

Underwriters may offer and sell the securities at a fixed price or prices, which may be changed, at market prices prevailing at the time of sale, at prices related to the prevailing market prices or at negotiated prices. We also may, from time to time, authorize dealers or agents to offer and sell these securities upon such terms and conditions as may be set forth in the applicable prospectus supplement. In connection with the sale of any of these securities, underwriters may receive compensation from us in the form of underwriting discounts or commissions and may also receive commissions from purchasers of the securities for whom they may act as agent. Underwriters may sell the securities to or through dealers, and such dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters or commissions from the purchasers for which they may act as agents.

Shares may also be sold in one or more of the following transactions: (a) block transactions (which may involve crosses) in which a broker-dealer may sell all or a portion of the shares as agent but may position and resell all or a portion of the block as principal to facilitate the transaction; (b) purchases by a broker-dealer as principal and resale by the broker-dealer for its own account pursuant to a prospectus supplement; (c) a special offering, an exchange distribution or a secondary distribution in accordance with applicable New York Stock Exchange or other stock exchange rules; (d) ordinary brokerage transactions and transactions in which a broker-dealer solicits purchasers; (e) sales "at the market" to or through a market maker or into an existing trading market, on an exchange or otherwise, for shares; and (f) sales in other ways not involving market makers or established trading markets, including direct sales to purchasers. Broker-dealers may also receive compensation from purchasers of the shares which is not expected to exceed that customary in the types of transactions involved.

Any underwriting compensation paid by us to underwriters or agents in connection with the offering of these securities, and any discounts or concessions or commissions allowed by underwriters to participating dealers, will be set forth in the applicable prospectus supplement. Dealers and agents participating in the distribution of the securities may be deemed to be underwriters, and any discounts and commissions received by them and any profit realized by them on resale of the securities may be deemed to be underwriting discounts and commissions. The maximum underwriting compensation to be received by any Financial Industry Regulatory Authority member or independent broker-dealer will not exceed 8% for any offering of these securities.

Underwriters, dealers and agents may be entitled, under agreements entered into with us, to indemnification against and contribution toward certain civil liabilities, including liabilities under the Securities Act of 1933. Unless otherwise set forth in the accompanying prospectus supplement, the obligations of any underwriters to purchase any of these securities will be subject to certain conditions precedent.

In connection with the offering of the securities hereby, certain underwriters, and selling group members and their respective affiliates, may engage in transactions that stabilize, maintain or otherwise affect the market price of the applicable securities. These transactions may include stabilization transactions effected in accordance with Rule 104 of Regulation M promulgated by the SEC pursuant to which these persons may bid for or purchase securities for the purpose of stabilizing their market price.

The underwriters in an offering of securities may also create a "short position" for their account by selling more securities in connection with the offering than they are committed to purchase from us. In that case, the underwriters could cover all or a portion of the short position by either purchasing securities in the open market following completion of the offering of these securities or by exercising any over-allotment option granted to them by us. In addition, the managing underwriter may impose "penalty bids" under contractual arrangements with other underwriters, which means that they can reclaim from an underwriter (or any selling group member participating in the offering) for the account of the other underwriters, the selling concession for the securities that are distributed in the offering but subsequently purchased for the account of the underwriters in the open market. Any of the transactions described in this paragraph or comparable transactions that are described in any accompanying prospectus

supplement may result in the maintenance of the price of the securities at a level above that which might otherwise prevail in the open market. None of the transactions described in this paragraph or in an accompanying prospectus supplement are required to be taken by any underwriters and, if they are undertaken, may be discontinued at any time.

Our common stock is listed on the New York Stock Exchange under the symbol "CIM." Any series of our preferred stock will be new issues of securities with no established trading market and may or may not be listed on a national securities exchange. Any underwriters or agents to or through which securities are sold by us may make a market in the securities, but these underwriters or agents will not be obligated to do so and any of them may discontinue any market making at any time without notice. No assurance can be given as to the liquidity of or trading market for any securities sold by us.

Underwriters, dealers and agents may engage in transactions with, or perform services for, us and our affiliates in the ordinary course of business. Underwriters have from time to time in the past provided, and may from time to time in the future provide, investment banking services to us for which they have in the past received, and may in the future receive, customary fees.

E X P E R T S

The consolidated financial statements incorporated in this prospectus by reference from the Company's Annual Report on Form 10-K, and the effectiveness of Chimera Investment Corporation's internal control over financial reporting have been audited by Deloitte & Touche LLP, an independent registered public accounting firm, as stated in their report, which is incorporated herein by reference. Such consolidated financial statements have been so incorporated in reliance upon the report of such firm given upon their authority as experts in accounting and auditing.

We file annual, quarterly, and current reports, proxy statements and other information with the SEC. You may read and copy any reports or other information that we file with the SEC at the SEC's Public Reference Room located at 100 F Street, N.E., Washington D.C. 20549. You may also receive copies of these documents upon payment of a duplicating fee, by writing to the SEC's Public Reference Room. Please call the SEC at 1-800-SEC-0330 for further information on the Public Reference Room in Washington D.C. and other locations. Our Securities and Exchange Commission filings, including our registration statement, are also available to you, free of charge, on the Securities and Exchange Commission's website at www.sec.gov. Finally, we also maintain an Internet site where you can find additional information. The address of our Internet site is <http://www.chimerareit.com>. All internet

addresses provided in this prospectus or in any accompanying prospectus supplement are for informational purposes only and are not intended to be hyperlinks. In addition, the information on our internet site is not a part of, and is not incorporated or deemed to be incorporated by reference in, this prospectus or any accompanying prospectus supplement or other offering materials. Accordingly, no information in our or any of these other internet addresses is included herein or incorporated or deemed to be incorporated by reference herein.

We have filed a registration statement, of which this prospectus is a part, covering the securities offered hereby. As allowed by SEC rules, this prospectus does not contain all of the information set forth in the registration statement and the exhibits, financial statements and schedules thereto. We refer you to the registration statement, the exhibits, financial statements and schedules thereto for further information. This prospectus is qualified in its entirety by such other information.

INCORPORATION OF CERTAIN DOCUMENTS BY REFERENCE

The SEC allows us to “incorporate by reference” information into this prospectus, which means that we can disclose important information to you by referring you to another document filed separately with the SEC. The information incorporated by reference is deemed to be part of this prospectus, except for any information superseded by information in this prospectus. We have filed the documents listed below with the SEC (File No. 1-33796) under the Exchange Act, and these documents are incorporated herein by reference:

- Our Annual Report on Form 10-K for the year ended December 31, 2008 as filed on March 3, 2009;
- Our Current Report on Form 8-K filed on April 17, 2009;
- Our Quarterly Report on Form 10-Q for the quarter ended March 31, 2009 filed on May 7, 2009; and
- Description of our common stock included in our Registration Statement on Form 8-A, filed on November 11, 2007.

All documents we file pursuant to Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act after the date of this prospectus and prior to the termination of the offering of the securities to which this prospectus relates (other than information in such documents that is not deemed to be filed) shall be deemed to be incorporated by reference into this prospectus and to be part hereof from the date of filing of those documents. All documents we file pursuant to Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act after the date of the initial registration statement that contains this prospectus and prior to the effectiveness of the registration statement shall be deemed to be incorporated by reference into this prospectus and to be part hereof from the date of filing those documents.

Any statement contained in this prospectus or in a document incorporated by reference shall be deemed to be modified or superseded for all purposes to the extent that a statement

contained in this prospectus or in any other document which is also incorporated by reference modifies or supersedes that statement.

We will provide to each person, including any beneficial owner, to whom a copy of this prospectus is delivered, a copy of any or all of the information that has been incorporated by reference in this prospectus but not delivered with this prospectus (other than the exhibits to such documents which are not specifically incorporated by reference herein); we will provide this information at no cost to the requester upon written or oral request to Investor Relations, Chimera Investment Corporation, 1211 Avenue of the Americas, Suite 2902, New York, New York 10036, telephone number (866) 315-9930.
